## Wood Bluetooth Stereo Speaker

## Appearance function description

- |                           |                        |
|---------------------------|------------------------|
| 1. Prev/ volume-          | 5. Microphone          |
| 2. Play/Pause/FM scanning | 6. TF card             |
| 3. Next/ volume+          | 7. AUX                 |
| 4. Mode button            | 8. DC 5V charging port |
| 9. ON/OFF                 |                        |

## Product feature

1. Bluetooth version 5.0. Receive audio signal within 10M
2. Wooden box, reproduces the better sounds
3. Unique bass boost technique
4. Support TF card playing Mp3
5. Support FM radio
6. Equipped with AUX port
7. Micro USB port for charging
8. Built-in 1500mah lithium battery, which can support 5 hours

## Technical index

Output power: 10W*4	Distortion degree: ≤0.3%(1W 1KHz)
Loudspeaker size: 52mm	Product size: 380*80*90mm
System frequency: 80Hz-16KHz	Charging voltage: DC5V 1000mA
Signal-to-noise ratio: ≥60dB	Play time: 4-5 hours
Input sensitivity: 600±100mV	Full charge time: 3 hours

## Basic operation instructions

1. **Power On:** move 9 key to ON side, the power is on and automatically search other bluetooth devices
2. **Bluetooth:**
  - >Re-link: when power is on, the product will try to re-connect the previous linked device, if can not, then back to auto searching after about 10 sec.
  - >Matching: turn your device on, tap the "matching" when it searched AZ-W9, in normal conditions, its password free.
  - >Bluetooth is peer-to-peer connection, so only one device can be connected at the same time. When connected, the match cannot be deleted, please disconnect first.
3. **Play music:** press 2 key shortly and it will play music in about 2 seconds, press it again to pause.
4. **Volume adjust:** by long pressing 1 key or 3 key.
5. **Next/Prev:** by short press 1 key or 3 key.
6. **TF card:** plug the TF card with MP3 files into the slot in correct direction. the product will automatically switch into TF card mode, and play music in your TF card, Volume adjust and Next/Prev are the same as normal mode.
7. **FM:** short press 4 key to switch it into FM mode, and press the 2 key to auto scanning. press 1 key for last channel, press 3 key for next channel.
8. **AUX:** Use the attached 3.5 audio line to connect speaker and the other end to connect the external sound source.
9. **Recharging:**
  - >When the battery is low, the speaker will remind the user to recharge
  - >When charging, the red light is on. The rated charging parameter is DC-5V 1000mAh, please use standard recharger in case to cause the circuit and battery.
  - >When use the speaker for the first time, please recharge it after full discharge, the first three charging shall up to 8 hours to extend the work life of the battery.

## Notice

1. The product is anti-interference, but very strong high frequency microwave and magnetic field will still interfere the product, please don't use it in such conditions.

2. Bluetooth is two-way transmission, different user's terminal have different transmission range, please use standard Bluetooth players.
3. Some phone's player doesn't have fade-in and fade-out function, it may cause POP sound when pause.
4. The modes are isolated from each other, it can't work in two modes at the same time.
5. If the speaker will be placed aside for long time, please recharge it once a month, to maintain the battery capacity.

Made in China

Please read this instruction carefully before use

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
