

Declaration of Professional Installation

Date: Dec 20, 2019

To:

Federal Communications Commission
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD

To whom it may concern:

Subject: Declaration of Professional Installation

We, AERIX.Co.Ltd., justify this Smart IoT device (FCC ID: 2AULC-ARX-IUMS435) is marketed as professional installation condition since the reason below.

- This device does not be sold via retail to the general public or by mail order. It is only be sold to installers who are needed to get sensor data of temperature, vibration and accelerometer as our customer only.
- Average consumer does not use this device because this device is applied to check the condition of facility in industrial/commercial location only.
- Installation must be controlled.
The product requires professional installation because the installer need to know the Sensor device, its electrical equipment and how to connect them to this IoT device and to setup SW for installation.

Sincerely,

Signature:
