To turn off Bluetooth on Airbuds put them in The case and close it

parameter specification

Bluetooth solution;realtek

Bluetooth protocol: V5.0

Transmission distance: over 10m without obstacle

Frequency:2.4 GHZ

Talk time: about 5.hours

Listening time: about 3 hours

Standby time: about 120 hours.

Functional features

Latest 5.0 bluetooth protocol

Ultra-low power consumption

Support binaural communication

Music is 2.5 hours long

Hi-fi sound quality

Safety and handling

Important safety information

Handle AirPods and case with care they contain sensitive electronic components including batteries and can be damaged or cause injury if dropped, burned, punctured, crushed, disassembled or if exposed to

Excessive heat or liquid. Don't use damaged AirPods or case,

Batteries

Don't attempt to replace AirPods or case batteries yourself you may damage the batteries which could cause overheating and injury,

Lightning cable and connector

Avoid prolonged skin contact with the

connector when the Lightning to USB Cable is plugged into a power source because it may cause discomfort or injury. For example, while the case is charging using the Lightning to USB Cable and a power adapter plugged into a power source, don't sit or sleep on the Lightning connector or place it under a blanket, pillow, or your body. Take special care if you have a physical condition that affects your ability to detect heat against your body.

Hearing loss

Listening to sound at high volumes may permanently damage your hearing. Background noise as well as continued exposure to high volume levels can make sounds seem quieter than they actually are. Check the volume before inserting AirPods in your ear,

WARNING :To prevent possible

hearing damage, do not listen at high volume levels for long periods.

Driving hazard

Use of AirPods while operating a vehicle is not recommended and is illegal in some areas. Check and obey the applicable laws and regulations on the use of earphones while operating a vehicle. Be careful and attentive while driving. Stop listening to your audio device if you find it disruptive or distracting while operating any type of vehicle or performing any activity that requires your full attention,

Choking hazard

AirPods and case may present a choking hazard or cause other injury to small children. Keep them away from small children.

Medical device interference

AirPods and case contain components and radios that emit electromagnetic fields. AirPods and case also contain magnets. These electromagnetic fields and magnets may interfere with pacemakers, defibrillators, or other medical devices. Maintain a safe distance of separation between your medical device and AirPods and case. Consult your physician and medical device

manufacturer for information Specific to your medical device stop using Airbuds and case if you suspect they are Interfering with your pacemaker defibrillator Or any other medical device.

Skin irritation

Earphones can lead to ear infections if not Properly cleaned clean Airbuds regularly with A soft lint free cloth don t get moisture in any Openings or use aerosol sprays solvents Or abrasives If a skin problem develops Discontinue use If the problem persists Consult a physician

Electrostatic shock

When using Airbuds in areas where the air is Very dry it is easy to build up static electricity And possible for your ears to receive a small Electrostatic discharge from Airbuds to Minimize the risk of electrostatic discharge Avoid using Airbuds in extremely dry Environments or touch a grounded unpainted Metal object before inserting Airbuds.

Important handling information

Discoloration of the Lightning connector And/or of the bottom of the stem of your Airbuds after regular use is normal dirt Debris and exposure to moisture may cause Discoloration before cleaning remove Airbuds from case and disconnect the

Lightning to USB cable from both the case And your computer or power adapter clean The lightning connector and the bottom of the Stem of your Airbuds with a soft dry lint free Cloth do not use liquids or cleaning products

Battery Statement

Warning: do not puncture or burn. The battery does not contain mercury.

Be careful

The battery can only be replaced by a service provider authorized by the factory or factory, and there is a danger of explosion if the battery is replaced with the wrong model.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the

following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
