

USER GUIDE

You can charge the device when you connect the charge with power supplies such as laptop, power bank or smartphone.

***If your charger stops working properly, remove the charger from the power supply and try again.**

A Side (AirPods / Galaxy Watch)

Place the Galaxy Watch Series and AirPods on the A side and ensure its center aligns to avoid overheat or disconnect. **Red light turns on when the device is ready. Green light turns on while charging.**

B Side (Apple Watch)

B side works with Apple Watch Series only. Place your watch on the charger with watch face turned upward until the battery indicator on the watch shows it is charged. **Green light turns on when the device is ready. Green light is flashing while charging.**

CAUTION

- Please read this instruction carefully before using the product to ensure safe and proper use.
- Do not disassemble or make any repair attempts to the charger.
- Do not expose the product to extreme temperatures or humidity, which may damage the circuits in the product.
- Do not allow children to chew or swallow the charger.
- Do not place foreign materials such as metal objects, liquid, magnets, and dust between the device and the wireless charger.
- If the device overheats while charging, the charger may charge slowly or stop charging. In this case, remove the device from the charger and allow it to cool down before charging again.
- If the device is not properly positioned on the wireless charger, it may cause an overheating or damage.
- Do not hard-press, crush, drop or apply any other mechanical shock.
- The charging time may differ based on the ambient temperature, the state of the battery.
- When the battery is full or not in use, remove the wireless charger from the power supply.
- Do not place any magnetic cards or storage media containing magnetic strips on the charging area.

SPECIFICATIONS

Input	5V/0.5A(Min)
Output	2W(Max)
Interface	USB Type-C
Size	36 x 68.5 x 12.9 (mm)

FCC Warning Statement

FCC Part 15.19

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Part 15.21

Any changes or modifications (including the antennas) to this device that are not expressly approved by the manufacturer may void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

This equipment complies with FCC Radiation exposure limits set forth for an uncontrolled environment. This device and its antenna must not be co-located or operating in conjunction with any other antenna or transmitter.

This equipment should be installed and operated with a minimum distance of 20cm between the radiator and your body.
