Federal Communications Commission  
7435 Oakland Mills Road  
Columbia, MD 21046

To whom it may concern:

Avuity LLC, hereby requests a Permissive Change Class II of the radio equipment certification for the RF2401F20 certification number, FCC ID: 2AUPP-VUAI01. This product differs from the originally approved product in the following manor:

Attached antenna module: The VuAi Sensor uses an attached passive antenna module to increase the signal reliability in our VuAi Sensor.

I do attest that the Field strength and/or RF Output readings remained the same or are lower than the originally approved product and that they did not increase therefore qualifying this product for this application type.

Sincerely,

A handwritten signature in blue ink, appearing to read "Brad Johnson", with a long horizontal flourish extending to the right.

Brad Johnson  
President / CEO  
Avuity LLC
