Instruction and Installation manual for On the Desk Wireless Charger

THIS DOCUMENT IS FOR USE ONLY BY ORIGINAL EQUIPMENT MANUFACTURERS (OEMS), OEM DEALERS OR INSTALLATION SERVICE FIRMS (TOGETHER INSTALLERS) WHO PURCHASE THE REFERENCED WESTCHARGE COMPONENTS FROM WESTCHARGE PRIVATE LIMITED

Components

1. Wireless charger (transmitter)

2. IOT device

3. Power adapter to power the IOT device & Wireless charge (Transmitter).

4. 30 cm long, 6 wired connector cable to connect the charger with the IOT device.

5. Packing blade (L: 100mmx B:20mm x H:1.58mm)

6. One plain head Allen screw (20-30mm) to tighten the charger unit

7. One Allen Key.

8. Two 12-20 mm M3 wood screws to fasten the packing blade to the table.

9. Cable clips.

Installation Guide

1. Drill out a 60 mm hole in the table, where the charger has to be fixed.

2. Place the charger unit into the hole.

3. Pass the screw with the nut attached through the central hole of the packing blade.

4. Place the packing blade under the table, exactly below the charger and tighten the screw to the charger unit.

5. Fix the wooden screw ends of packing blade.

6. Plug in the 6 wired connector cable from the charger unit into the IOT device.

7. Connect the power adapter to the IOT device and plug it in to the main supply.

W1SU, W1SOG, W1SOB, W1SOC, W1FU, W1FOG, W1FOB, W1FOC

FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: [1] This device may not cause harmful interference and [2] This device must accept any interference received, including interference that may cause undesired operation.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to the equipment. Such modifications could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However there is no guarantee that interference will not occur in a particular installation. If this equipment does not cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interface by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult an experienced radio/TV technician for help
- The device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

RF exposure information and statement:

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance of 20 cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any others antenna or transmitter.
