Subject: Request for Confidentiality
FCC ID: 2AUPX04

To Whom It May Concern,

Pursuant to the provisions of the Commission's rules Title 47 Sections §0.457 and §0.459, Grantee is requesting the Commission withhold the following attachment(s) as confidential documents from public disclosure indefinitely.

These documents contain detailed system and equipment descriptions and are considered proprietary information in operation of the equipment. The public disclosure of these documents might be harmful to Grantee and would give competitors an unfair advantage in the market.

- ☒ Schematic Diagram
- ☒ Block Diagram
- ☒ Operational Description
- ☒ Internal Photos

Internal photos are included in this long-term confidentiality request per the special condition outlined in KDB 726920 D01 II(3)(a)(2). Grantee considers certain elements of the PCBA as trade secrets, and visual inspection of the photos would disclose those trade secrets.

Grantee's device will only be used by Grantee, and all third-party shippers, installers, and technicians handling Grantee's device on behalf of Grantee are subject to applicable agreements with Grantee (e.g., supplier agreements or NDA) that include confidentiality/non-disclosure provisions.

Grantee's device will be installed within an enclosure and permanently affixed to a ceiling support member 9 to 20 feet above the floor. The device will be professionally installed, and the public will not have physical access to the device.

No Short-Term Confidentiality requests are being submitted.

It is our understanding that all measurement test reports, FCC ID label format and correspondence during the certification review process cannot be granted as confidential documents and this information will be available for public review once the grant of equipment authorization is issued.

Sincerely,

Signature:

Name: Paul Briskey
