注意事项 matters need attention
Matters needing attention

- 切勿将产品暴露于雨水（漏电对人体产生危害）日晒的环境中。
- 需要对其进行通风散热，切勿将机器放在散热器、热源或其它任何可能影响正常通风的设备附近。因为机器长期使用的同时产生的热量非常多。否则容易对机器零部件产生损坏。有时候导致漏电对人群产生巨大威胁。
- 3.以免高压触电或其它危险，切勿对机器进行自行拆卸或修理。应请专业的维修人员来完成所有的维修工作。
- 4.清洁本机屏幕前，切勿在通电的时候清理屏幕。请先拔掉电源线，确保机器处于断电状态下，用干净柔软不带线头的布轻轻的擦拭，切勿在屏幕上直接使用喷雾剂。
- 5.机器也经不起大起大落的电压折腾，稳定的电压对产品的使用寿命有着非常重要的意义。建议使用稳定的市电，切不可和电梯等大功率设备共同使用一个电源。如在电压经常不稳定的地方如：地铁站等，请务必使用相应的稳压设备进行稳压，否则易造成机器不稳定工作，甚至会烧毁机器，造成不必要的巨大损失。
- 6.所以 SD 卡对于机器也是一个非常核心的部分，对于很多单机版的机 器很多都是使用 CF 卡来读取内容。所以不要在开机状态下挺拔 CF 卡，应在关机后进行操作。
- 7.清洗时，请运用柔软的干布擦拭设备外壳，禁止向多媒体机器设备喷洒液体，避免破坏设备。
- 8.开关机时间控制在 10 秒以上，防止反复电击损伤元件。
- 9.切勿对多媒体机器进行自行拆开或修补，避免高压触电或其它风险，应请专业的保护人员来完结一切的维修作业。
1. Do not expose the product to the sun (the leakage of electricity is harmful to the human body) in the sun.
2. Ventilation is required. Do not place the machine near radiators, heat sources, or any other equipment that may affect normal ventilation. Because the machine uses a lot of heat at the same time. Otherwise it is easy to damage the machine parts. Sometimes leakage causes a huge threat to the crowd.
3. To avoid high voltage electric shock or other hazards, do not disassemble or repair the machine yourself. Professional maintenance personnel should be required to complete all repair work.
4. Never clean the screen while the power is on before cleaning the unit's screen. Unplug the power cord first, make sure that the machine is in a power-off state, and gently wipe it with a clean, soft, non-threaded cloth. Do not use the spray directly on the screen.
5. The machine also cannot withstand the voltage fluctuations of the ups and downs. The stable voltage has a very important meaning for the service life of the product. It is recommended to use a stable mains supply and never use a power supply with high-power equipment such as elevators. For example, in places where voltage is often unstable, such as subway stations, be sure to use the corresponding voltage regulator for voltage regulation. Otherwise, it will cause unstable operation of the machine, and even burn the machine, causing unnecessary huge losses.
6. So the SD card is also a very core part of the machine. For many stand-alone machines, many CF cards are used to read the content. Therefore, do not straighten the CF card in the power-on state, and operate it after shutdown.
7. When cleaning, please use a soft dry cloth to scrub the equipment casing. Do not spray liquid on the multimedia equipment to avoid damage to the equipment.
8. The time of the switch is controlled for more than 10 seconds to prevent repeated shocks from damaging the components.
9. Do not disassemble or repair the multimedia machine by yourself to avoid high-voltage electric shock or other risks. Professional protective personnel should be required to complete all maintenance work.
