

APPENDIX 1: EUT PHOTO

Photo 1 (For model Friendie AIR PRO 2.0)

Photo 2

A photograph of a custom green printed circuit board (PCB) with various components and a ruler for scale. The PCB is irregularly shaped with two large circular cutouts. It features several surface-mounted components, including integrated circuits, resistors, and capacitors. A small silver cylindrical component is attached to the left side. Three thin wires (red, white, and black) are connected to the top right. A ruler at the bottom shows a scale from 0 to 9 cm, with a 0.5mm mark indicated.
