a) Utilisation de la montre **BIG BANG e** et de ses accessoires en toute sécurité

Préservation de l'intégrité de votre montre **BIG BANG e**

(i) Généralités

N'utilisez pas ni ne conservez la montre **BIG BANG e** dans un endroit poussiéreux ou sale, car cet environnement pourrait endommager les composants.

Ne conservez pas la montre **BIG BANG e** dans un endroit chaud ou exposé à la lumière directe du soleil. Les hautes températures peuvent en effet réduire la durée de vie des dispositifs électroniques, endommager la batterie et la rendre inopérante et déformer ou faire fondre certains plastiques.

Ne conservez pas la montre **BIG BANG e** dans un endroit froid. Lorsque vous prendrez ensuite la montre et qu'elle se réchauffera et reviendra à sa température normale, de l'humidité pourra se former à l'intérieur qui pourrait endommager les circuits électroniques.

N'essayez pas d'ouvrir le boîtier de la montre. Toute manipulation de la montre **BIG BANG e** par un non-spécialiste est susceptible d'endommager cette montre et d'annuler la garantie et/ou la garantie limitée US.

Veillez à ne pas laisser tomber la montre et à ne pas la cogner contre quelque chose.

Ne placez pas d'objets lourds sur la montre.

N'appliquez pas d'objets coupants sur l'écran.

N'exercez pas une force excessive sur l'écran. Toute manipulation brutale est susceptible d'endommager les circuits internes.

N'utilisez pas de produits chimiques agressifs, ni de solvants de nettoyage

ou de détergents puissants pour nettoyer la montre **BIG BANG e**.

Avant d'écouter votre montre à l'aide d'écouteurs, veillez à régler le volume sur un niveau raisonnable, afin de vous éviter toute lésion auditive. Si la montre **BIG BANG e** ou l'un ou l'autre de ses accessoires ne fonctionne pas correctement, adressez-vous à votre magasin HUBLOT le plus proche.

Le personnel vous aidera et si nécessaire fera réparer votre montre.

En plus des instructions qui précèdent, veuillez consulter le manuel d'utilisation et de garantie qui contient des informations concernant le câble, le chargeur, la prise murale et la sécurité électrique de la batterie.

(ii) Exposition aux liquides

La montre **BIG BANG e** est résistante à l'eau jusqu'à une profondeur de 30 mètres.

Efforcez-vous d'exposer le moins possible votre montre aux substances suivantes : savon, détergent, acides ou aliments acides, liquides autres que l'eau douce, tels que l'eau salée, l'eau savonneuse, l'eau de piscine, les parfums, les insectifuges, les lotions, les écrans solaires, l'huile, les dissolvants pour adhésif, les teintures capillaires et les solvants.

La montre **BIG BANG e** possède la classification de résistance à l'eau IP68 de la norme CEI 60529.

Si votre montre **BIG BANG e** est pourvue d'un bracelet en cuir, sachez que les bandes de cuir ne sont pas résistantes à l'eau.

Les conditions suivantes sont susceptibles d'altérer la résistance à l'eau de la montre **BIG BANG e** et sont donc à éviter :

- Laisser la montre **BIG BANG e** sous l'eau pendant de longues périodes ;
- Faire tomber la montre **BIG BANG e** ou la soumettre à des chocs ;
- Exposer la montre **BIG BANG e** à un jet d'eau sous pression ou à un écoulement d'eau rapide, comme cela peut arriver lors d'activités sportives telles que le ski nautique, la planche nautique, le surf et le jet ski ;
- Porter la montre **BIG BANG e** dans un environnement chaud ou humide, tel que celui d'un sauna ou d'un hammam.

(iii) Utilisation des boutons, de la couronne digitale, des connecteurs et des ports

N'exercez jamais une pression excessive sur un bouton de la montre **BIG BANG e**, ni ne forcez pour enficher un connecteur dans un port car cela pourrait provoquer des dommages non pris en charge au titre de la garantie et/ou de la garantie limitée US. Si l'enfichage d'un connecteur dans un port ne s'effectue pas suffisamment facilement, cela signifie qu'ils ne vont probablement pas ensemble. Vérifiez que rien n'obstrue le port et vérifiez que le connecteur correspond bien au port et que vous avez bien positionné le connecteur par rapport au port.

Certaines utilisations peuvent contribuer à effilocheur ou à rompre des câbles.

Comme pour tout autre fil ou câble métallique, le fait de courber un câble en un même point et de façon répétée est susceptible d'affaiblir et de fragiliser le câble.

Veillez à disposer le câble suivant une courbe douce, en évitant de former des angles.

Contrôlez régulièrement le câble et le connecteur afin de repérer toute pliure, tout cintrage ou autre dommage. Si vous observez un tel dommage, cessez d'utiliser le câble.

La décoloration des accessoires (câbles, prises) après une utilisation régulière est normale. La poussière, les débris et l'exposition à l'humidité sont en effet susceptibles de provoquer une décoloration. Si vos accessoires deviennent chauds à l'usage, ou si la montre **BIG BANG e** ne se charge pas ni ne peut se synchroniser, débranchez le câble de l'adaptateur d'alimentation et nettoyez les accessoires à l'aide

d'un chiffon sec, non abrasif et non pelucheux. N'utilisez ni liquides ni produits de nettoyage pour nettoyer les accessoires.

Il est possible que la surface de charge des accessoires de charge de la montre **BIG BANG e** se décolore après une utilisation régulière. Le nettoyage de la surface de charge peut réduire ou empêcher cette décoloration et contribuera à éviter d'endommager votre chargeur et votre montre **BIG BANG e**.

Pour nettoyer la surface de charge, débrancher le chargeur de la montre **BIG BANG e** et de l'adaptateur et essuyez la surface à l'aide d'un chiffon humide non abrasif. Séchez ensuite la surface à l'aide d'un chiffon non abrasif et non pelucheux, avant de reprendre le chargement. Ne nettoyez pas la surface de charge avec des produits de nettoyage.

b) Protection de la santé de l'utilisateur

Il est recommandé d'une façon générale de ne pas utiliser la montre **BIG BANG e** dans les cas où sa défaillance pourrait provoquer un décès, un dommage corporel ou un dommage environnemental grave.

Si vous avez la moindre question concernant votre montre **BIG BANG e** ou les éléments chimiques de ses batteries et/ou de ses accessoires, n'hésitez pas à nous contacter via notre adresse e-mail help@hublot.com, ou par courrier à l'adresse suivante: HUBLOT SA — SIÈGE ET MANUFACTURE — Ch. de la Vuarpillière 33 — 1260 NYON — SUISSE (TEL : +41 (0)22 990 90 00).

La montre **BIG BANG e** et les applications **BIG BANG e** qu'elle intègre ne sont pas des dispositifs médicaux. Elles ne sont pas conçues pour être utilisées dans le cadre de l'établissement de diagnostics de maladies ou d'autres états pathologiques, ni pour le traitement, l'atténuation ou la prévention de maladies. Avant d'entamer ou de modifier un quelconque programme d'exercice avec la montre **BIG BANG e**, consultez votre médecin.

Pendant tout exercice, restez prudent et attentif. Cessez immédiatement l'exercice si vous ressentez une douleur, une sensation d'évanouissement ou d'étourdissement, de l'épuisement ou un essoufflement. En pratiquant un quelconque exercice physique, vous assumez l'ensemble des risques correspondants, y compris le risque de blessure associé à ce type d'activité. Si vous avez un quelconque problème de santé dont vous estimez qu'il pourrait être affecté par la montre **BIG BANG e** (exemples : convulsions, évanouissements, fatigue visuelle, maux de tête), n'utilisez pas la montre **BIG BANG e** sans avoir au préalable consulté votre médecin.

Certaines personnes peuvent réagir à certains matériaux utilisés dans les bijoux, les montres et autres articles à porter, lorsque ceux-ci sont en contact avec la peau. Ces réactions peuvent être dues à des allergies, des facteurs environnementaux, une exposition prolongée à des irritants tels que le savon, la sueur ou autres.

Si vous faites des allergies ou présentez d'autres sensibilités, tout article portable est susceptible de provoquer chez vous des irritations. Si vous présentez des sensibilités cutanées, soyez particulièrement prudent lorsque vous porterez la montre **BIG BANG e**. Le fait de trop serrer le bracelet de la montre augmentera le risque de provoquer chez vous une irritation.

Enlevez périodiquement votre montre **BIG BANG e** de façon à laisser votre peau respirer. Gardez le bracelet de votre montre propre et sec, afin de réduire toute possibilité d'irritation cutanée. Si vous présentez des rougeurs ou des gonflements ou ressentez des démangeaisons ou toute autre irritation ou gêne cutanée, autour de la montre ou entre elle et votre peau, enlever la montre **BIG BANG e** et consultez votre médecin avant de recommencer à la porter. Une utilisation permanente, même après la disparition des symptômes, peut faire réapparaître l'irritation ou l'accroître.

Les matériaux utilisés dans la montre **BIG BANG e** et dans les bracelets HUBLOT sont conformes aux normes établies pour les bijoux par la Commission de sécurité des produits de consommation américaine (U.S. Consumer Product Safety Commission), aux réglementations européennes applicables et aux autres normes internationales.

Lors des mises à jour du logiciel, et dans certaines autres circonstances limitées, il est possible que la **BIG BANG e** surchauffe, ce qui a pour effet de rendre les parties externes de la montre plus chaudes au toucher que d'habitude. Dans ce cas, n'hésitez pas à enlever votre **BIG BANG e** de votre poignet et attendre un court instant avant de la remettre, afin d'éviter toute irritation.

Si vous utilisez un dispositif médical électronique, veuillez-vous reporter à la partie « Interaction avec l'environnement / Interférence avec les équipements électroniques et caractéristiques magnétiques » ci-après.

c) Intégrité des personnes de votre entourage

(i) Protection des enfants

Gardez votre montre **BIG BANG e** et ses accessoires hors de portée des enfants. Certains bracelets **BIG BANG e**, en particulier, peuvent présenter un risque d'étouffement chez les jeunes enfants. Gardez ces bracelets hors de portée des jeunes enfants.

(ii) Marcher et conduire en toute sécurité

N'utilisez pas votre montre **BIG BANG e** en conduisant. La montre **BIG BANG e** émet, utilise et peut émettre des signaux radioélectriques. Ces signaux sont susceptibles d'interférer avec tout système électronique mal installé ou insuffisamment blindé qui peut être présent dans un véhicule automobile. Interrogez sur ce point le fabricant ou son représentant. Si un équipement quelconque a été ajouté à votre véhicule, nous vous conseillons aussi de consulter le fabricant de cet équipement pour obtenir les informations nécessaires concernant les signaux radioélectriques.

N'utilisez pas votre montre **BIG BANG e** en marchant ou en vous livrant à une activité qui requiert toute votre attention. Tout manque d'attention vis-à-vis de la circulation automobile ou des risques auxquels on peut être exposé en marchant est susceptible d'entraîner de graves dommages corporels, la mort ou encore une perte matérielle.

Sécurité électrique

a) Accessoires

Utilisez uniquement les accessoires approuvés par HUBLOT. Toute utilisation d'accessoires non approuvés par HUBLOT avec la montre **BIG BANG e** sera susceptible d'invalider tout agrément ou toute garantie et/ou toute garantie limitée US applicable à votre montre et/ou pourra rendre votre montre **BIG BANG e** inopérante et/ou dangereuse.

b) Accessoires de chargement

Pour charger la montre **BIG BANG e**, utilisez uniquement les accessoires de chargement approuvés.

Votre montre **BIG BANG e** est fournie avec les accessoires de chargement suivants : câble micro USB, chargeur et prise murale.

Utilisez uniquement des accessoires approuvés.

Lorsque vous n'utilisez pas un chargeur, débranchez-le de la source d'alimentation. Pendant le chargement, il est important de conserver la montre **BIG BANG e** et les accessoires fournis avec dans un endroit bien ventilé.

Utilisez les accessoires de chargement fournis avec la montre BIG BANG e ou tout autre accessoire de chargement approuvé par HUBLOT, et ce uniquement en les raccordant au type de source d'alimentation indiqué sur l'étiquette. Avant d'utiliser toute alimentation électrique, vérifiez que la tension de secteur (CA) correspond à la tension indiquée sur l'alimentation.

Afin d'éviter tout risque d'incendie ou de choc électrique, ne surchargez pas la prise de courant, les rallonges ni les prises multiples. Pour réduire le risque d'endommagement du cordon ou du chargeur mural, tirez sur le chargeur mural plutôt que sur le cordon, au moment de déconnecter l'accessoire de chargement de la prise de courant ou de la source d'alimentation.

L'utilisation d'accessoires de chargement de la montre **BIG BANG e** endommagés ou le fait de charger en présence d'humidité est susceptible de provoquer un incendie, un choc électrique, un dommage corporel ou tout autre dommage à l'utilisateur ou à la montre **BIG BANG e** ou à tout autre bien.

Avant de procéder au chargement, vérifiez que la montre **BIG BANG e** et ses accessoires de chargement sont bien secs. Lorsque vous utilisez les accessoires de chargement pour recharger la montre **BIG BANG e**, veillez à ce que la prise USB soit enfichée à fond dans l'adaptateur avant de brancher l'adaptateur dans une prise de courant. Évitez de charger la montre **BIG BANG e** alors qu'elle est directement exposée à la lumière du soleil.

Ne portez pas la montre **BIG BANG e** lorsqu'elle est en charge.

Évitez tout contact prolongé du connecteur avec la peau lorsque le câble est raccordé à une source d'alimentation car cela pourrait vous procurer une gêne ou vous blesser.

Évitez de dormir ou de vous asseoir sur le connecteur.

En plus de tout ce qui précède :

- N'exposez pas le chargeur à de l'eau pendant son utilisation car le chargeur et la montre **BIG BANG E** pourraient ne plus fonctionner ;
- Insérez le câble USB dans le socle du chargeur avec précaution car le fait de forcer le câble dans le mauvais sens endommagera le chargeur ;
- Il est recommandé de charger la montre **BIG BANG E** dans un endroit frais, afin d'éviter toute surchauffe de la montre ;
- Il est recommandé de ne pas charger la montre **BIG BANG E** dans un endroit où la montre serait directement exposée à la lumière du soleil car cette exposition pourrait provoquer une surchauffe ;
- Une fois la montre **BIG BANG E** placée dans le chargeur et le chargeur branché sur la prise murale, un écran de charge s'affichera sur la montre, qui indiquera le pourcentage de charge de la batterie ;
- Il est recommandé, une fois que la montre **BIG BANG E** est entièrement rechargée, de la retirer du chargeur ;
- Si la montre **BIG BANG E** ne se charge pas, vérifiez que la prise murale est bien insérée dans la prise de courant murale, que le câble USB est bien fixé au chargeur et que la montre est bien en place sur le chargeur ;
- Si la montre **BIG BANG E** ne se charge toujours pas, vérifiez qu'elle est correctement orientée sur le chargeur et que le dos de la montre est bien propre ;
- Le chargeur contient un petit aimant qui permet de bien aligner et fixer la montre **BIG BANG E** sur le chargeur. Gardez le chargeur à distance de tout élément métallique.

c) Sécurité de la batterie

Votre montre **BIG BANG E** contient une batterie intégrée non remplaçable. N'essayez pas de remplacer cette batterie (pour obtenir des informations sur le recyclage de la batterie, veuillez consulter la partie « Maintenance et élimination / Élimination des équipements électroniques ou électriques et des batteries » ci-après).

Dans tous les cas :

- N'exposez pas la batterie au feu ni à aucune autre source de chaleur externe, telle qu'une plaque chauffante, une plaque de cuisson, un appareil de chauffage ou un four car cela pourrait provoquer un incendie ou une explosion ;
- Ne jetez pas les batteries au feu ;
- N'utilisez jamais et d'aucune manière une batterie ou un chargeur endommagé. N'utilisez la batterie que pour la fonction à laquelle elle est destinée. Ne court-circuitez pas la batterie ;
- Ne laissez pas la batterie dans un endroit chaud ou froid.

Interaction avec l'environnement

a) Interférence avec les équipements électroniques et caractéristiques magnétiques

Comme tout équipement de radio transmission, votre montre **BIG BANG E** est susceptible d'interférer avec d'autres appareils électroniques.

Lorsque vous êtes à bord d'un avion, ou dans tout lieu où cela est demandé (hôpital, station-essence, etc.), éteignez votre appareil.

Dans tous les cas, veillez à n'utiliser votre appareil que là où cette utilisation est autorisée, et de la façon autorisée.

Votre montre **BIG BANG E** peut en particulier interférer avec des stimulateurs cardiaques, des défibrillateurs ou d'autres dispositifs médicaux.

Maintenez une distance de sécurité entre votre dispositif médical et la montre **BIG BANG E** et ses accessoires. Pour obtenir toute information concernant votre dispositif médical, consultez votre médecin et le fabricant du dispositif en question. Si vous pensez que votre montre **BIG BANG E** est en train d'interférer avec votre stimulateur cardiaque, votre défibrillateur ou tout autre dispositif médical, cessez d'utiliser votre montre.

b) Zones dangereuses

Il peut être dangereux de charger ou d'utiliser la montre **BIG BANG E** dans toute zone où l'atmosphère est potentiellement explosive, et notamment dans des zones où l'air contient de hauts niveaux de produits chimiques, vapeurs ou particules inflammables (tels que du propergol, de la poussière ou des poudres métalliques).

Respectez tous les panneaux et toutes les instructions.

c) Températures de fonctionnement et de stockage

La plage de température de fonctionnement normale de la montre **BIG BANG E** est de 0 à 40 °C (32 à 104 °F).

Tout stockage ou fonctionnement en dehors de cette plage de température est susceptible d'endommager la montre **BIG BANG E** et de raccourcir la durée de vie de la batterie. Évitez d'exposer la montre **BIG BANG E** à de brutales variations de température ou d'humidité. Si la température intérieure de la montre **BIG BANG E** dépasse les températures de fonctionnement normales (par exemple dans une voiture où il fait particulièrement chaud, ou en cas d'exposition à la lumière directe du soleil pendant de longues périodes), il est possible que vous constatiez les phénomènes suivants pendant que la montre cherchera à réguler sa température :

- Le chargement pourra ralentir ou s'arrêter ;
- L'écran pourra s'assombrir ;
- Certains transferts de données pourront être suspendus ou retardés.

La montre **BIG BANG e** et ses accessoires sont conformes aux normes et aux limites applicables en matière de température de surface.

Toutefois, même avec ces limites, un contact permanent et prolongé avec des surfaces chaudes peut provoquer une gêne ou une lésion. Le fait de connecter la montre **BIG BANG e** et ses accessoires à une source d'alimentation aura pour effet de les réchauffer. Il est donc nécessaire de faire preuve de bon sens, afin d'éviter toute situation dans laquelle votre peau serait en contact avec la montre **BIG BANG e** et/ou ses accessoires pendant de longues périodes alors que la montre et les accessoires seraient connectés. Si, par exemple, la montre **BIG BANG e** est en charge, ou si ses accessoires sont raccordés à une source d'alimentation, ne dormez pas sur la montre ni sur les accessoires, et ne les placez pas sous une couverture, sous un oreiller ou sous votre corps. Si vous présentez une pathologie de nature à affecter votre capacité à détecter la chaleur au contact de votre corps, soyez tout particulièrement vigilant. Si votre montre **BIG BANG e** devient trop chaude, enlevez-la.

Maintenance et élimination

a) Nettoyage et réparation

Gardez votre montre **BIG BANG e** propre et sèche. En cas d'exposition à de l'eau douce, séchez soigneusement la montre. En cas de contact entre la montre et toute chose susceptible de provoquer des tâches ou tout autre dommage, tel que de la poussière ou du sable, de l'encre, du savon, un détergent, de l'acide ou des aliments acides, ou en cas de contact avec des liquides autres que de l'eau douce, y compris avec tout liquide susceptible de provoquer une irritation de la peau, tel que les suivants : sueur, eau salée, eau savonneuse, eau de piscine, parfum,

insecticide, lotion, écran solaire, huile, dissolvant pour adhésifs, teinture capillaire ou solvant. La montre **BIG BANG e** peut présenter des variations d'aspect ou pâlir avec le temps.

Il est recommandé, dans le cadre de l'entretien de votre montre **BIG BANG e**, d'éviter :

- De nettoyer la montre alors qu'elle est en charge ;
- De sécher la montre ou le bracelet à l'aide d'une quelconque source de chaleur externe (par exemple un sèche-cheveux) ;
- D'utiliser des produits de nettoyage ou de l'air comprimé pour nettoyer la montre.

b) Précautions à prendre et informations concernant la batterie intégrée :

- Votre montre **BIG BANG e** intègre une batterie rechargeable, qui n'est ni remplaçable ni retirable par l'utilisateur ;
- N'essayez pas de remplacer la batterie ni de la retirer de votre montre **BIG BANG e** par vous-même ;
- Le fait de porter atteinte à l'intégrité de votre produit ou de tenter de l'ouvrir aura pour effet d'annuler la garantie et/ou la garantie limitée US et peut représenter un risque pour votre sécurité ;
- Pour toute manipulation de la batterie, veuillez contacter votre magasin HUBLOT ou appeler nos centres de service clients aux numéros de téléphone que vous trouverez à la fin de ce livret.

Exclusions de la garantie

Les dommages consécutifs à tout entretien ou toute intervention assuré ailleurs que dans un centre de service client HUBLOT officiel sont exclus de la garantie et entraînent l'annulation. La garantie internationale limitée ne couvre pas non plus les bracelets, quartz et piles, ni les dommages causés au boîtier ou aux éléments matériels par suite d'une pénétration d'humidité dans votre montre **BIG BANG e** imputable à une mauvaise manipulation.

Plus généralement, cette garantie ne s'applique pas s'il apparaît que votre montre **BIG BANG e** a été manipulée de façon incorrecte ou inadéquate, et notamment :

- Si le produit a été ouvert par l'utilisateur ou par une personne non autorisée ;
- Si le produit a été connecté à des accessoires non recommandés, tels qu'un autre type de batterie ou de chargeur ;
- Si le produit a été volontairement dégradé ou utilisé en dehors des règles recommandées pour son démarrage ou son utilisation, par exemple en cas de mauvais enfichage ou si le produit a été exposé à une tension excessive ou à des décharges électriques, à des chocs importants ou à une contrainte mécanique anormale ayant conduit à une dégradation importante du logement du produit ou des composants électroniques ;
- Si le produit a été anormalement exposé à l'eau ou à des substances chimiques (présence de corrosion ou d'humidité)
- Si le produit a été exposé à une température élevée (supérieure à 40 °C / 104 °F) ou à toute autre

condition d'environnement extrême ;

- Si quelqu'un a tenté de modifier le logiciel du produit.

Si l'un des cas susvisés était avéré, la montre **BIG BANG e** concernée ne bénéficiera pas de la garantie internationale limitée. Important safety precautions

Please note that failure to comply with the following guidelines may cause malfunctions or be hazardous to the user and/or void or reduce the benefit from the guarantee and/or US Limited Warranty.

a) Using the **BIG BANG e** and its accessories safely

Keeping your **BIG BANG e** safe

(i) General

Do not use or store the **BIG BANG e** in dusty, dirty areas as its components may be damaged.

Do not store the **BIG BANG e** in warm areas or under direct sunlight.

High temperatures can shorten the life of electronic devices, damage batteries, cause them to become inoperative, and warp or melt certain plastics.

Do not store the **BIG BANG e** in cold areas. When the **BIG BANG e** afterwards warms up to its normal temperature, moisture can form inside the **BIG BANG e**, which may damage the electronic circuits.

Do not attempt to open the **BIG BANG e**'s casing. Non-expert handling of the **BIG BANG e** may cause damage to your **BIG BANG e** and may void the guarantee and/or US Limited Warranty.

Do not drop or knock the **BIG BANG e**.

Do not place heavy objects on it.

Do not use sharp objects on the screen.

Do not use excessive force on the screen. Rough handling may damage the internal circuits.

Do not use harsh chemicals, cleaning solvents or strong detergents to clean the **BIG BANG e**.

While listening to your device with headphones, make sure you have set the volume to a reasonable level in order to avoid damage to your ears.

If the **BIG BANG e** or any of its accessories are not working properly, take them to your nearest HUBLOT store. The personnel there will assist you, and if necessary and possible, arrange for the **BIG BANG e** to be repaired.

In addition to the above, please refer to your instructions and guarantee manual for information on cables, charging cradle, wall plugs and battery electrical safety.

(ii) Exposure to liquid

The **BIG BANG e** is 30-meter water-resistant.

Try to minimize exposing the **BIG BANG e** to these substances: soap, detergent, acids or acidic foods, and any liquids other than fresh water, such as salt water, soapy water, pool water, perfume, insect repellent, lotions, sunscreen, oil, adhesive remover, hair dye, or solvents.

The **BIG BANG e** has a water resistance rating of IP68 under IEC standard 60529.

If your **BIG BANG e** has a leather strap, be aware that leather bands are not water resistant.

The following may affect the water resistance of the **BIG BANG e** and should be avoided:

- Submerging the **BIG BANG e** Watch in water for long periods of time;
- Dropping the **BIG BANG e** or subjecting it to impacts;
- Exposing the **BIG BANG e** to pressurized water or high velocity water, for example, water skiing, wake boarding, surfing, jet skiing, etc;
- Wearing the **BIG BANG e** in a hot or humid environment, such as a sauna or steam room.

(iii) Using buttons, Digital Crown, connectors, and ports

Never apply excessive pressure to a button on the **BIG BANG e**, or force a charging connector into a port, because this may cause damage that is not covered under the guarantee and/or US Limited Warranty. If the connector and port do not join with reasonable ease, they probably do not match. Check for obstructions and make sure that the connector matches the port and that you have positioned the connector correctly in relation to the port.

Certain usage patterns can contribute to the fraying or breaking of cables. The cable attached to a charging unit, like any other metal wire or cable, is subject to becoming weak or brittle if repeatedly bent in the same spot. Aim for gentle curves instead of angles in the cable. Regularly inspect the cable and connector for any kinks, breaks, bends, or other damage. Should you find any such damage, discontinue use of the cable.

Discoloration of the accessories (cable, plugs) after regular use is normal. Dirt, debris, and exposure to moisture may cause discoloration. If your accessories become warm during use or if the **BIG BANG e** does not charge or sync, disconnect the cable from the power adapter and clean the accessories with a nonabrasive, dry, lint-free cloth. Do not use liquids or cleaning products when cleaning the accessories.

Discoloration of the charging surface of the **BIG BANG e** charging accessories may occur after regular use. Cleaning the charging surface may reduce, or prevent, such discoloration, and will help to prevent damage to your charger and the **BIG BANG e**. To clean the charging surface, disconnect the charger from both the **BIG BANG e** and the power adapter and wipe with a damp, nonabrasive cloth. Dry with a nonabrasive, lint-free cloth before resuming charging. Do not use cleaning products when cleaning the charging surface.

b) Protection of the user's health

As a general recommendation, the **BIG BANG e** is not intended for use where the failure of the device could lead to death, personal injury, or severe environmental damage.

If you have any questions concerning your **BIG BANG e**, its batteries and/or accessories' chemical contents, do not hesitate to contact us through our email address help@hublot.com or by mail at the following address: HUBLOT SA — HEADQUARTERS & MANUFACTURE — Ch. de la Vuarpillière 33 - 1260 NYON — SWITZERLAND (TEL : +41 (0)22 990 90 00).

The **BIG BANG e** and the included **BIG BANG e** apps are not medical devices. They are not designed or intended for use in the diagnosis of disease or other conditions, or in the cure, mitigation, treatment, or prevention of disease. Before starting or modifying any exercise program using the **BIG BANG e**, consult your physician. Be careful and attentive while exercising. Stop exercising immediately if you feel pain, faint, dizzy, exhausted, or short of breath. By exercising, you assume all associated inherent risks including any injury that may result from such activity. If you have any medical condition that you believe could be affected by the **BIG BANG e** (for example, seizures, blackouts, eyestrain, or headaches), consult your physician prior to using the **BIG BANG e**.

Some people may experience reactions to certain materials used in jewelry, watches, and other wearable items that are in prolonged contact with their skin. This can be due to allergies, environmental factors, extended exposure to irritants like soap, sweat, or other causes. You may be more likely to experience irritation from any wearable device if you have allergies or other sensitivities. If you have known skin sensitivities, please take special care when wearing the **BIG BANG e**. You may be more likely to experience irritation from the **BIG BANG e** if you wear it too tightly.

Remove the **BIG BANG e** periodically to allow your skin to breathe.

Keeping the **BIG BANG e** bands clean and dry will reduce the possibility of skin irritation. If you experience redness, swelling, itchiness, or any other irritation or discomfort on your skin around, or beneath, your **BIG BANG e**, please remove the **BIG BANG e** and consult your physician before resuming wear. Continued use, even after symptoms subside, may result in renewed or increased irritation.

The materials used in the **BIG BANG e** and the **BIG BANG e** bands meet the standards set for jewelry by the U.S. Consumer Product Safety Commission, applicable European regulations, and other international standards.

During software updates and other limited circumstances, the **BIG BANG e** may overheat, causing the exterior portions of the watch to feel warmer than usual to the touch. In such event, do not hesitate to remove the **BIG BANG e** from your wrist for a brief moment to avoid irritation.

If you use an electronic medical device, please refer to section "Interaction with the environment" below.

c) Integrity of people around

(i) Protection of children

Keep the **BIG BANG e** and its accessories out of the reach of children. In particular, some **BIG BANG e** bands may present a choking hazard to small children. Keep these bands away from small children.

(ii) Walking and driving safely

Do not use your **BIG BANG e** while driving.

The **BIG BANG e** generates, uses, and can radiate radio frequency signals. Radio frequency signals might affect improperly installed or inadequately shielded electronic systems in motor vehicles. Check

with the manufacturer or its representative regarding your vehicle. If any equipment has been added to your vehicle, you should also consult the manufacturer of that equipment for information on radio frequency signals.

Do not use your **BIG BANG e** while walking or engaging in any activity that requires your full attention. Inattention to vehicular traffic or other pedestrian hazards could result in serious injury, death or property loss.

Electrical Safety

a) Accessories

Use only those accessories approved by HUBLOT. Using any accessories not approved by HUBLOT for use with your **BIG BANG e** might invalidate any approval or guarantee and/or US Limited Warranty applicable to your device and or might result in the **BIG BANG e** becoming inoperative and/or dangerous.

b) Charging accessories

Your **BIG BANG e** is provided with the following charging accessories: micro USB cable, charging cradle and wall plug. Use only approved charging accessories.

When a charger is not in use, disconnect it from the power source.

It is important to keep the **BIG BANG e** and the accessories provided therewith in a well-ventilated area when charging.

Use the charging accessories provided with the **BIG BANG e or any other HUBLOT approved charging accessories only from the type of power source indicated on the label.** Before you use any power supply, verify that the mains (AC) voltage is in accordance with the voltage printed on the power supply.

Do not overload power outlet, extension cords or convenience receptacles because this might result in a risk of fire or electric shock. To reduce the risk of damage to the cord or the wall charger, pull the wall charger rather than the cord when you disconnect the charging accessory from the power outlet or power source.

Using damaged **BIG BANG e** charging accessories, or charging when moisture is present, can cause fire, electric shock, injury, or damage to the user or the **BIG BANG e** or other property. Be sure the **BIG BANG e** and the charging accessories are dry before charging. When you use the charging accessories to charge the **BIG BANG e**, make sure that the USB plug is fully inserted into the adapter before you plug the adapter into a power outlet. Avoid charging the **BIG BANG e** in direct sunlight. Do not wear the **BIG BANG e** while it is charging.

Avoid prolonged skin contact with the connector when the cable is plugged into a power source because it may cause discomfort or injury. Sleeping or sitting on the connector should be avoided.

In addition to the above:

- Do not expose the charger to water while in use; this may cause the charger and the **BIG BANG e** to fail;
- Carefully insert the USB cable into the charger base, forcing the cable in the wrong direction will damage the charger;
- It is recommended to charge the **BIG BANG e** in a cool place, in order to prevent overheating of the **BIG BANG e**;
- It is not recommended to charge the watch in a place where there is direct sunlight on the **BIG BANG e**, as this may cause overheating;
- When the **BIG BANG e** is placed on the charger, and the charger is plugged into a wall, a charging screen will be displayed on the face of the **BIG BANG e**, indicating the percentage of battery already charged;
- It is recommended to remove the **BIG BANG e** from the charger once it is fully-charged;
- If the **BIG BANG e** fails to charge, check that the wall plug is fully inserted into the wall outlet, the USB cable is firmly attached to the charger, and the watch is properly placed on the charger;
- If the **BIG BANG e** still does not charge, make sure that the watch is accurately oriented on the charger and make sure the back of the **BIG BANG e** is clean;
- The charger contains a small magnet to ensure proper alignment and attachment of the **BIG BANG e** to the charger. Please keep the charger away from metal.

c) Battery safety

- Your **BIG BANG e** contains a built-in battery that is not replaceable. Do not attempt to replace your product's battery (for information on the recycling of the battery, please refer to section "Maintenance and disposal" below). In any event:
- Do not expose the battery to fire or other external heat sources, such as hot plates, stove tops, space heaters or ovens, as this could cause fire or explosion;
- Do not dispose of batteries in a fire;
- Never use any charger or battery that is damaged in any way. Use the battery only for intended purposes. Do not short-circuit the battery;
- Do not leave the battery in hot or cold places.

Avoid exposing the **BIG BANG e** to dramatic changes in temperature or humidity. If the interior temperature of the **BIG BANG e** exceeds normal operating temperatures (for example, in a hot car or in direct sunlight for extended periods of time), you may experience the following as it attempts to regulate its temperature:

- Charging may slow or stop;
- The display may dim;
- Some data transfer may be paused or delayed;

The **BIG BANG e** and its accessories comply with applicable surface temperature standards and limits. However, even within these limits, sustained contact with warm surfaces for long periods of time may cause discomfort or injury.

The **BIG BANG e** and its accessories will become warm when plugged into a power source. Use common sense to avoid situations where your skin is in contact with the **BIG BANG e** and/or its accessories for long periods of time when they are plugged in. For example, while the **BIG BANG e** is charging or while its accessories are plugged into a power source, do not sleep on them or place them under a blanket, pillow, or your body. Take special care if you have a physical condition that affects your ability to detect heat against the body. Remove the **BIG BANG e** if it becomes uncomfortably warm.

The discount is also available to you if the seller fails to provide a remedy for your claim within a reasonable time or where such a remedy would cause substantial difficulties to you.

Your claims under Czech law can be raised with the seller from whom you bought the **BIG BANG e** within the statutory time limits as stated above. As an example, the Consumer Sales Act may allow you to file a product complaint within three years after receiving a product.

Specific additional terms of guarantees applicable to Turkey

This International Limited Guarantee is in addition to other rights and remedies available to you under local law, which may not be excluded. Under Turkish laws, the warranty period is 2 years as from the delivery date of the **BIG BANG E** and the expected life span of the product is 5 years. The fullest extent of the goods including all parts is within the scope of warranty. In case the **BIG BANG E** is evaluated as defective, the consumer can use one of the rights granted in Article 11 of the Law Regarding Protection of Consumers numbered 6502:

- cancellation of the contract,
- discount in the sales price in proportion to the defect,
- free-of-charge repair,
- replacement of the defective **BIG BANG E** with a new one.

The seller is liable to perform such request preferred by the consumer. If free-of-charge repair or replacement of the defective **BIG BANG E** leads to disproportionate difficulties for the seller, the consumer can cancel the agreement or request a discount in the sales price in proportion to the defect. In determining what is disproportionate, the value of the **BIG BANG E** free from the defects, severity of the defect and whether or not the exercise of other optional rights would constitute a problem for the consumer shall be taken into account. In case the right of replacement of the **BIG BANG E** with a new one is chosen, it is required to satisfy such request within thirty business days at most as from directing it to the seller, manufacturer or the importer. Otherwise, the consumer is free to use other optional rights.

In case the consumer chooses the right of free of charge repair, the seller is liable to repair or to have repaired the **BIG BANG E** without demanding the cost of labor, the price of replaced parts or any other costs under whatsoever name. You may use the right of free of charge repair or replacement of the **BIG BANG E** with a new one against the manufacturer or importer as well. The seller, manufacturer and the

importer are severally responsible for performing such rights within this paragraph. The manufacturer or the importer shall not be held liable where they can prove that the defect occurred after they released the **BIG BANG e** into the market. In case the right of free of charge repair is used by the consumer, you can request for refund of the purchase price, deduction from the purchase price in the rate of the defect or, if possible, replacement of the **BIG BANG e** with a new one from the seller in the events that;

- the **BIG BANG e** is broken down again within the warranty period,
- maximum period for the repair is exceeded,
- it is determined that repair of the **BIG BANG e** is not possible, through a report issued by authorized technical station, seller, manufacturer or importer. The seller cannot reject the request of the consumer. If such claim is not satisfied, the seller, manufacturer and the importer are severally responsible.

The repair period of the **BIG BANG e** is maximum 20 business days. Otherwise, you are free to use other granted optional rights. This period begins as of the notification date of the fault to the authorized service station or the seller within the warranty period, and the delivery date of the **BIG BANG e** to the authorized service station without the warranty period. In case the fault is not repaired within 10 business day, the seller or the importer shall be liable to assign another **BIG BANG e** having similar features for the use of the consumer until the repair is finished. In case the **BIG BANG e** is broken down within the warranty period, the period in repair shall be added to warranty period.

In case you choose the rights of cancellation of the contract or discount in the sales price in proportion to the defect, all paid amount or the discounted amount in the sales price shall be refunded to you immediately.

All costs generated from the use of optional rights shall be fulfilled by the party performing such rights of the consumer. You may also request for the compensation in accordance with the provisions of the Turkish Code of Obligations dated January 11, 2011 and numbered 6098 together with one of these optional rights.

The faults arising from the improper use of the goods against the facts indicated in guidelines for use are out of the warranty scope.

You may apply to Consumer Board or Consumer Court where your residential place is located or the where the purchase transaction has been performed for the disagreements arising from your warranty rights.
