

Wireles Charing Power Bank

Compatible with all Qi Wireless device

The Convenience of Wireless Charging on-the-go

The Power Bank is a portable power supply that is not only beautiful but also convenient to use. Thanks to the embedded magnets, the wireless power bank firmly aligns to your phone to let you enjoy wireless charging also on-the-to. It has a 8000 mAh battery. With its USB port, the power bank can charge all your devices with cables.

Mount the Magnetic Patch

- a. Find the Magnetic Patch from the box.
- b. Stick the Magnetic Patch on the center of the phone.

IMPORTANT:
THE MAGNETIC PATCH MUST BE STICKED
ON THE CENTER OF THE PHONE!
OTHERWISE IT WILL AFFECT THE FUNCTION

- c. That is it.

Enjoy the Magnetic Grip to align your smart phone to the power bank for the best wireless charging experience

Enjoy Wireless Charging in your pocket

User Manual

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- o Reorient or relocate the receiving antenna.
- o Increase the separation between the equipment and receiver.
- o Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- o Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
