A photograph of a disassembled mobile phone, showing the internal components laid out on a green grid background. The components include the main circuit board, battery, camera, and various connectors. The grid has numerical markings from 0 to 25 on both the horizontal and vertical axes. The phone's internal components are arranged in a rectangular layout, with the main board occupying the central area. The battery is located at the bottom, and the camera is at the top. Various connectors and components are visible along the edges of the board.
