**WARNING!**

- Please do not use earphones while driving, cycling or operating any motorised vehicle.
- Do not play your earphones at high volume while walking, especially when crossing roads as this can be dangerous.
- Avoid using earphones at high volume. Hearing experts advise against continuous, loud and extended play. If you experience a ringing in your ears, reduce volume or discontinue use.
- Always keep volume at a moderate level so you are able to hear outside sounds and take those around you into consideration.
- Keep clean using a soft, dry cloth.
- Never immerse in water.

Care & Maintenance

- Clean with a soft, damp cloth slightly moistened with water or a mild detergent.
- Do not use any chemical cleaners such as alcohol, benzine or thinners.
- Never leave the CD Player in direct sunlight or in hot, humid or dusty places.
- Keep the MP3/CD Player away from heating appliances and sources of electrical noise such as fluorescent lamps and motors.

#### FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

#### RF Exposure Statement

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance of 5mm the radiator your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.
