修改，谢谢。

FAST WIRELESS CHARGING SUCTION CUP MOUNT

Model : AH-01

PRODUCT GUIDE

- Wireless Charging Suction Cup Mount
- Dual Port Quick Charge Car Charger (Optional)
- 1m Type-C to USB-A Sync & Charge Cable

What is included?

Specifications

-Wireless Charging Suction Cup Mount

Model	AH-01
Input	DC 5V/2A, 9V/2A
Output	10W Max(Android) 7.5W Max(iPhone)

-Dual Port Quick Charge Car Charger

Model	RP-PC084
Input	DC 12V - 24V / 3.4A MAX
Output	Output 1: DC 5V / 2.4A Output 2: DC 3.6V-6.5V / 3A, 6.5V-9V / 2A, 9V-12V / 1.5A

Wireless Charging Suction Cup Mount LED Indicator/Status

Charging Indicators	Working Status
Turns blue for 10 seconds, then turns off	Standby
Turns on solid blue	Charging a compatible device
Blue indicator turns off	Device fully charged
Flashes red	FOD (Foreign Object Damage) alarm

- 17.Car Charger/Indicator
(Green : Fast Charging; Blue: Standard Charging)
- 18.USB A Output: Quick Charge 3.6V-6.5V/3A, 6.5V-9V/2A, 9V-12V/1.5A (Green)
- 19.USB A Output : 5V/2.4A (White)
- 20.Type-C Cable

Mounting & Using the Phone Holder

1. Loosen the stabilizing nut, insert the ball joint, and then tighten the nut to lock in place.

2. Place the suction cup mount on the dashboard or windshield, and then press down the suction lock.

3. Press the open button to open the locking side arms.

4. Place your phone when your phone start charging, the arms clamp your phone automatically.

5. Rotate the ball joint to obtain your best viewing angle.

How to Charge Your Devices

1. Connect the Type-C cable into the charging port.
2. Insert the USB connector into a car charger.

3. Position your phone so that the arm automatically clamps the phone by generating electromagnetic induction.

Note:

- Line up the center of phone with the charging coils to achieve efficient charging.
- Phone cases more than 0.2 inch / 0.5 cm thick will not be detected. Remove before charging. Charging will start automatically with a right connection and the charging indicators will light up accordingly.

Caution:

	The charging process may give off heat so your device will become warm. Use only in cool environments.
	If the product gets wet, please stop the charging process immediately and remove all plugs. Do not use it before it's completely dry.
	Do not drop, knock, or squeeze the product.
	Do not dismantle or throw the product in fire or water to avoid causing short circuit leakage.
	Do not use the wireless charger in severely hot, humid, or corrosive environments to avoid circuit damage and leakage.
	Do not use the charger if it has excessive dents, punctures, damages, or deformities.
	Do not place close to magnetic stripe or chip card (ID card, bank cards, etc.) to avoid magnetic failure.
	Make sure the back of your phone or phone case is even without foreign metal objects.
	Keep at least 20 cm / 7.9 in away from implantable medical devices (pacemakers, implantable cochlear, etc.) to avoid potential magnetic interference.
	Keep away from children.

FCC Statements

Caution: The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmit
