

Test Positions

Front Side (Separation distance of 0mm)  A photograph showing the front side of a black tablet device mounted on a white test rig. The rig features a horizontal white bar with a black knob on the right and a white cylindrical component on the left. The background shows a laboratory setting with a blue machine and a wooden pallet.	Back Side (Separation distance of 0mm)  A photograph showing the back side of the black tablet device. The white test rig is visible, showing the same components as the front view from a different angle. The background is consistent with the other photos.
Right Side (Separation distance of 0mm)  A photograph showing the right side of the black tablet device. The white test rig is visible, showing the black knob and the white cylindrical component. The background shows the laboratory environment.	Top Side (Separation distance of 0mm)  A photograph showing the top side of the black tablet device. The white test rig is visible, showing the black knob and the white cylindrical component. The background shows the laboratory environment.
