BABY MONITOR
QUICK START GUIDE

BABY MONITOR QUICK START GUIDE

Warning: Strangulation Hazard

Keep cord out of the reach of children (more than 3ft away) in case of STRANGULATION.

- NEVER place the camera or cord in or near a crib or playpen.
- NEVER mount the camera directly above a crib or playpen to avoid the risk of injury.
- Only use the AC adapters provided.

Caution

- NOT toys. Do not allow children to play with them.
- This product is NOT intended to replace the proper supervision of children. You MUST check your children's activity regularly.

Charging & Powering Baby Monitor

- 1) Connect the monitor adapter to the monitor and to a power outlet.
- 2) Unplug the unit when its power indicator turns off, indicating a full charge.
- 3) Press and hold the power button on the monitor for 3 seconds, the monitor is turned on.

Powering the Camera

- 1) Connect the camera to the power source via the Type-C cable and camera adapter.

Pairing the baby Monitor& the Camera

By default, one camera has been paired with the monitor when manufactured. When you power on the monitor and camera, they will automatically pair.

To add more cameras, press the Pair Button at the top of the lens, select through   , and then the monitor will pair automatically with the camera.

For more detail, reference the step - CAMERA SETTING.

- Only use the power adapters included in the package.
- Do not place the camera and power cord within the reach of your baby.

Placing the Camera

Place the camera 4.9-6.6ft away from your baby for safety reasons and for a better view when in night vision mode.

Specifications

Monitor

Screen Size	5.5 inches
Screen Resolution	720P
Video Input	Support 4-channel video input (support binding 4 cameras)
Microphone	Built-in noise-Cancelling microphone
Speaker	Built-in
Battery	5000mAh
Buttons	Power On / Off, Up / Down / Left / Right, Confirm & Zoom In, Menu, Back, Intercom, Camera Switch, Reset
Charging Interface	TYPE-C
Rated Voltage	DC 5V±5%
Product Size	190(L)*110(W)*23(H)mm
Operating Temperature	-10°C to 50°C
Operating Humidity	<90%

Camera

Image Sensor	1/2.9" 2MP CMOS image sensor
Video Resolution	1920 X 1080
Frame Rate	15fps
Night Vision	5m
Viewing Angle	87°
Microphone	Built-in noise canceling microphone
Speaker	Built-in 2W speaker
Audio Transmission Method	Half Duplex
Transmission Method	2.4G FHSS private protocol
Transmission Distance	1200ft/350m (In Open Space)
Alarm Range	Crying / Temperature / Low power / Image interruption / Virtual fence intrude alarm
Pan / Tilt	Horizontal: 355° Vertical: 110°
Temperature Sensor	Built-in
Storage	Local TF card (up to 128G)
Installation Method	Lay flat / Hanging Installation
Charging Interface	TYPE-C
Rated Voltage	DC 5V±5%
Product Size	122(W)*194(H)mm
Operating Temperature	-10°C to 50°C
Operating Humidity	<90%

FCC Warning:

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and.
- (2) This device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ◆ Reorient or relocate the receiving antenna.
- ◆ Increase the separation between the equipment and receiver.
- ◆ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- ◆ Consult the dealer or an experienced radio / TV technician for help.

RF Exposure Statement

To maintain compliance with FCC's RF Exposure guidelines, this equipment should be installed and operated with minimum distance of 20cm the radiator your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

IC Warning:

This device contains licence-exempt transmitter(s) / receiver(s) / that comply with Innovation Science and Economic Development Canada's licence-exempt RSS(s).

Operation is subject to the following two conditions:

- (1) This device may not cause interference and.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Radiation Exposure:

This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment; To maintain compliance with IC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance of 20cm the radiator your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

Déclaration de l'ISED Canada :

Cet appareil contient des tasmittre (s) / récepteur (s) sans licence / conformes à l'innovationRSS exemptes de licence de Sciences et Développement économique Canada.

L'opération est sous réserve des deux conditions suivantes :

- 1) Cet appareil ne peut pas causer d'interférences et.
- 2) Cet dispositif doit accepter toute interférence, y compris peut provoquer le fonctionnement indésirable de l'appareil.

Exposition aux rayonnements :

Cet équipement est conforme aux radiations du Canada limites d'exposition pour un environnement incontrôlé noncé d'exposition RF Pour maintenir le respect des guides d'exposition RF d'IC, cquipment doit être installé et actionné avec une distance minimale de 20cm le radiateur de votre corps. Cet appareil et ses antennes ne doivent pas être co-localisé ou en opération en conjonction avec toute autre antenne ou émetteur.

Product not powering on?	<ul style="list-style-type: none"> ● Check that the camera and monitor are turned on. ● Check whether the camera is properly connected to the power source. Whether the power indicator of the camera is on. ● Check that the monitor is of enough battery (it'll auto shut off when battery level icon is red on the monitor).
Baby monitor can't connect with the camera?	<ul style="list-style-type: none"> ● Check whether the monitor is of low battery. ● Charge it in time to restore good connection. ● Check whether the camera is well connected to the power. ● Check whether there are any large metallic objects including metallic doors, refrigerators, mirrors, etc, placed between the camera and monitor thus blocking the radio signals. ● Check whether there's any other 2.4GHz product is used nearby like WiFi routers, microwave ovens, which may interfere the connection.
Nothing shown when I view a camera?	<ul style="list-style-type: none"> ● If nothing above is involved, please retry to pair. ● Check all connections to the camera (power cable plugging and pairing). ● Check whether the screen is in sleep mode. Press any button to awake it. ● Check whether the camera is within range of the monitor. ● Adjust the monitor antenna to vertical position for better signal transfer.
No sound from the monitor?	<ul style="list-style-type: none"> ● Check whether the system sound volume is set High or Low. Check if it is set to mute.
Black and white pictures?	<ul style="list-style-type: none"> ● Night vision LED may be ON. Please turn on room lights to force it out of the night mode.

Choppy videos?	<ul style="list-style-type: none"> ● Check whether the camera is near the monitor and that there' re no obstacles between them. ● Adjust the monitor antenna to vertical position for better signal transfer.
Too much noise?	<ul style="list-style-type: none"> ● Volume may be too high. ● The camera and monitor may be put too close;keep them at least 4.9ft apart. ● The camera may be too out of range.Please keep it within 32.8ft to the monitor.
