

Wireless Range Extender

Mobile phone setup

2.4G

1 Plug in your wifi extender and wait for 30s

Until the lights(2.4G) both on means able to start setting

* If Abnormal, please reset:
Press and hold the "Reset/WPS" or "Reset" key for 8 seconds and then release it. Wait until the 2.4G lights are on to indicate a successful reset.

2 Connect your extender SSID

Both are available

* NOTE:
Please remember to turn off your mobile network data. You have no access to Internet until you finish all setting steps. If your phone prompts that the network cannot be connected, click to continue

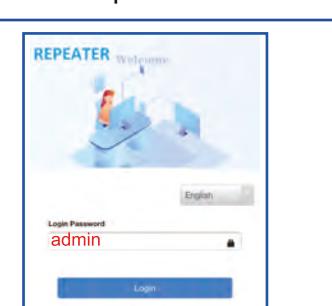

3 Open your browser webpage (Google&Firefox Browser Recommended)

Pls open the browser, entering 192.168.188.1 in the address bar and visit. If access fails, please check if the correct SSID(wifi-xxxx) is connected and the mobile data of the phone is turned off.

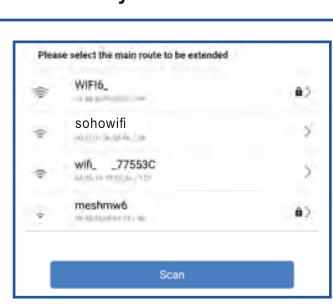

4 Enter the default password: admin

5 Scan and select your host router to connect

Please select the main route to be extended

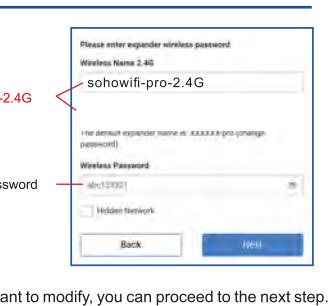

6 Enter the password of your host router

Please enter the password of the host route

7 Set your Extender SSID and password

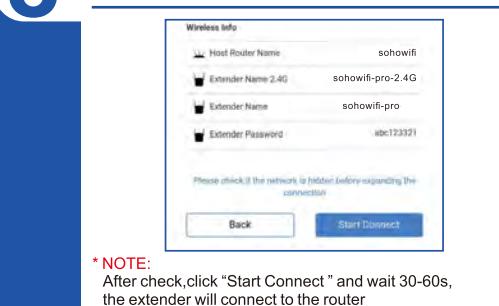

Default SSID: original SSID-pro-2.4G can be changed

8 Check again and confirm the wireless information

Host Router Name: sohowifi
Extender Name: sohowifi-pro-2.4G
Extender Name: sohowifi-pro
Extender Password: abc123321

* NOTE:
After check, click "Start Connect" and wait 30-60s, the extender will connect to the router

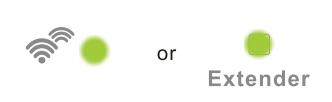

9 Wait for the repeater to connect to the router successfully.

After the setting is completed, please observe the signal indicator. If it lights up, it means that the relay is successful. Please connect sohowifi-pro-2.4G/sohowifi to the Internet.

Please wait 47 seconds

10 The "Extender" indicator lights on means successful connection.

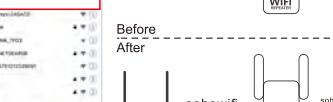

* NOTE:
After the setting is completed, please observe the signal indicator. If it lights up, it means that the relay is successful. Please connect sohowifi-pro-2.4G/sohowifi to the Internet.

11 Reselect and reconnect to your extender wifi

Before: sohowifi
After: sohowifi-pro-2.4G

Re-select and reconnect to your extender wifi hotspot
(The new wifi name defaults to the original wifi name plus pro-2.4G)

Wireless Range Extender

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

§ 15.19 Labeling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

§ 15.21 Information to user.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.
