FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. During the operation of device a distance of 15 cm surrounding the device and 20 cm above the top surface of the device must be respected.

Safety Information

1. Read these instructions carefully for best use.
2. DO NOT use the Multi-Device Qi Charge Tower near water or expose it to rain or moisture.
3. DO NOT use the Multi-Device Qi Charge Tower near open flames, such as candles, heat sources, radiators and stoves.
4. Only clean the Multi-Device Qi Charge Tower with a dry cloth.
5. Caution: Risk of electric shock. Grounding continuity must be maintained.
6. For connection to a power supply not in the U.S.A., use an attachment plug adapter of the proper configuration for the power outlet, if needed.
7. Please check prior use, if output voltage and current of the power supply is suitable for the product.
8. Children should be supervised to ensure that they do not play with the appliance.
