

Please take attention that changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

iwarm 3.0 uses soft,thin material as the core heating material,which converts electricity quickly into heat energy through efficient electrothermal conversion.

I.Features of iwarm 3.0

1. Driving force:5V,high safety factor(<36V);
2. Planar heating, even heating, fast heating,comfortable;
3. The far-infrared wavelength emitted by iwarm 3.0 is very close to the human body;
4. Realize intelligent and touch-tune control mode, meet the requirements of different people and different temperatures in different environments.

II.About products

1.Product photos

2. Bluetooth function

Connect the USB connector to the 5V / 2A mobile power interface, long-press the controller, let the Bluetooth light flashing, Controller enters Bluetooth connection status.

3. Using steps

(1). Download and install app for mobile phone.

IOS:
Scan the QR code
Download "iwarm 3"
Or search "iwarm 3" in APP store

Android:
Scan the QR code
Download "iwarm 3"

(2). Install the APP, open your phone Bluetooth, enter the software interface and long-press the controller, let the Bluetooth light flashing, click on the "+" to add intelligent wearing, then you can work on the iwarm 3.0 independently

III. Controller

	Controller usage guide
Control lamp condition	Output level
Red light long bright	High level
Orange light long bright	Middle level
White light long bright	Low level
Red light flashing	Heating sheet reaches setting high level temperature
Orange light flashing	Heating sheet reaches setting middle level temperature
White light flashing	Heating sheet reaches setting low level temperature
Bluetooth light flashing	Open your phone bluetooth, the controller and your phone must be in 2 meters, then connect APP
Purple/red light fast flashing	The master controller is wrong, please connect with manufacturer

IV. Product description

1. Heating clothes are prohibited from dry cleaning. They can be washed by machine or hand at room temperature. After washing, they need to be fully dried before they can be used again.
2. Strictly forbidden to charge and discharge on the edge of mobile power supply.
3. Please turn off or remove the mobile power when not use. Avoid heating when not dress, Forbid using sleep.

V. Product parameters

Name: iwarm 3.0

One piece size: 180mm*300mm

Three piece size: 150mm*220mm*1P + 150mm*120mm*2P

Using temperature:-20℃ to 70℃

Using relative humidity:≤85RH%

VI.Disabled groups

*Infants and without self-care ability;

*Careful use of pregnant women

VII.Product packing configuration

1. 1 set Heating component;
2. 1 copy instruction manual;
3. 1 tag.

[Warranty terms]

1. From the date of saling. Free warranty within one year(not-human damage);
2. The following cases are not in the warranty scope: beyond the scope of attention, improper use, self-repair or man-made sabotage(including misoperation),and use the product for other purpose beyond the scope,etc.
3. Within the scope of the law, our company reserves the right of modification and final interpretation of the warranty;
4. The provisions of laws and regulations are clearly defined and enforced.
