Overview

Charging Contact    LED Indicator

Ear Tips    Touch Control Area

Charging Pin on Case    Type-C Charging Port

Charging Case Power Display

Product Parameters

Model No.: T62    Charging Case: 300mAh 3.7V, 1.11Wh  
Charging Port: Type-C    Charging Time: 1h for earbuds;  
Input: 5V = 1A    1h~1.1h for charging case  
Support Profile: A2DP/AVRCP    Transmission Range: 33 feet  
Earbuds: 30mAh 3.7V, 0.11Wh    (without obstacle)

How to Pair with Your Devices?

Stereo Mode

(First to use – please ensure that both the earbuds and the  
charging case are fully charged.)

1 Take out both earbuds from  
the case.  
(Both earbuds will automatically  
power on and enter pairing  
mode within 10s)

2 Turn on Bluetooth on your  
device(Phone/PC),  
select "T62" to connect the  
earbud successfully.

Reset

If only one earbud is working or the earbuds fail to pair or connect,  
reset them as follows:

1. Turn off Bluetooth on all devices near the earbuds and remove/forget  
[T62] records from your device.

2. Put both earbuds in the charging case and ensure that they are  
charging.

3. Tap both earbuds quickly 5 times to clear the pairing record with  
the last device. (Both earbuds' LEDs will flash green and white lights  
3 times).

How to Wear Your Earbuds?

Step 1: Make sure the ear tips are facing down. Then place the  
earbuds in your ears.

Step 2: Rotate the earbuds back to the auricle side to fit snugly.  
Eartip facing up is the wrong way to wear earbuds.

How to Fit Your Ears?

Step 1: Select the appropriate eartip size (small, medium, large) and  
place it on the earbuds.

Step 2: Place the ear tips firmly on the earbuds. There should be no  
gap between the ear tip and earbuds.  
(Medium-sized ear tips are pre-mounted on earbuds.)

1 Place eartips  
onto the earbuds

2 Firmly push  
eartips onto the earbuds

Power On and Power Off

Power On

Auto Power On: Open the  
charging case, earbuds will  
automatically power on.

Manual Power On: Long tap  
on the touch control area for  
2s, earbuds will power on and  
earbud light will flash white 1s.

Power Off

Auto Power Off: Put both earbuds in  
the charging case, and closing the  
case, earbuds will automatically  
power off .

Note: This method just for earbuds  
doesn't pair with your device yet.

Manual Power Off: Long tap on  
either earbud for 5s, the light on  
earbuds will flash green, then  
earbud power off.

How to Charge?

Earbuds Charging:

Place both earbuds in the charging case and close the lid of the case.  
(Earbuds are charging, the LED indicator will flash green; Earbuds  
are fully charged, the green light will go off)

Charging Case Charging:

Please use the included Type-C USB cable to charge the charging case.  
(When charging, the digital display will show the real-time  
battery level.)

Input: DC 5V

Battery Warning

Using the wrong battery can cause fire and other hazards (for  
example, in the case of semimetallic battery types).

1. Disposal of a battery into fire or a hot oven, or mechanically  
crushing or cutting of batterythat can result in an explosion.

2. Do not leaving a battery in an extremely high temperature  
surrounding environment than can result in an explosion or the  
leakage of flammable liquid or gas.

3. A battery subjected to extremely low air pressure that may result  
in an explosion or leakage of flammable liquid or gas.

FCC Caution

Changes or modifications not expressly approved by the party  
responsible for compliance may void the user's authority to operate  
the equipment. This equipment has been tested and found to  
comply with the limits for a Class B digital device,pursuant to Part  
15 of the FCC Rules. These limits are designed to provide  
reasonable protection against harmful interference in a residential  
installation. This equipment generates uses and can radiate radio  
frequency energy and, if not installed and used in accordance with  
the instructions, may cause harmful interference with radio  
communications. However, there is a guarantee that interference  
will not occur in a particular installation. If this equipment does  
cause harmful interference with radio or television reception, which  
can be determined by turning the equipment off and on, the user is  
encouraged to attempt to correct the interference by one or more  
of the following measures:

- Reorient or relocate the receiving antenna.

- Increase separation between equipment and receiver.

- Connect the equipment to an outlet on a circuit different from that  
to the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

Storage and Maintenance

1. If the earbuds have been unused for more than 3 months, we  
recommend that you charge them.

2. Please use chargers that are FCC (Federal Communications).

3. Do not disassemble earbuds.

4. Adult supervision is required for children aged 6 and under.

5. Do not expose earbuds to high or low temperature. do not use  
the earbuds in thunderstorm storm. Avoid falling or violent impact  
of the device. Keep the device away from fire,dn not put.

FAQ

(You can refer to the following solutions. If you cannot solve them,  
please contact us by email, we will support you throughout)

What should I do if my earbuds are not charging?

① Check whether there are dirty in the charging pins of the earbuds  
and the charging case.

② Whether the earbuds can be turned on normally.

③ Whether the charging case is charged and whether the charging  
case can be charged;

④ Whether to use the regular adapter and the Type-C cable included.

Poor sound quality, seems unsatisfactory?

① The mesh of earbuds may be dirty.

Please use a fine cotton swab dipped in a small amount of alcohol to  
wipe the mesh of earbuds.

② The size of the choosing eartips and earbuds wearing direction  
may be unsuitable.

Please choose the right eartips and adjust earbuds wearing direction.

How to avoid mistaken touch?

Please do not let the touch area touch other objects (such as hair,  
desks, hats, headbands, etc.)

Why do my earbuds keep falling? How to avoid it?

① Your device does not have the wrong ear caps, pls choose the ear-tips that fit  
your ear size.

② The earbuds are not worn in the right way, pls put the earbuds  
under your ear and rotate it to match the right angle.

Signal Lag

① Please check whether there is interference in the surrounding  
environment.

② Check whether the earbuds are low power state and high  
temperature state.

③ The use distance is not recommended to exceed 10 meters.

④ If none of the above conditions exist, please restart the device  
and earbuds, and re-pair them.

Volume up and down automatically

Please make sure the surface of the touch area is sweaty,  
wipe with dry paper and try again.

② Please note that the touch area please do not touch other  
objects to avoid false touch (such as hair, desktop, hat, headband,  
etc.)

Why are the possible reasons why earbuds and computers don't pair?

① Your device does not have Bluetooth function, you can connect a  
Bluetooth converter externally.

② The Bluetooth version of the computer is too low, try upgrading  
the Bluetooth.

Why is the volume of my earbuds small?

① Please check whether the sound output hole is blocked.

② Try to adjust the device volume and earbuds volume to the  
maximum, see if it works.

The call is not clear/unable to speak.

① Make a master-slave switch to confirm whether the two earbuds  
talk the same.

② Confirm that the main earbud is worn, the microphone function  
only works in the main headset. (The host will switch between  
master and slave after putting it in the case and showing the lid.)

③ If you use the conference APP, it may be poor compatibility.

#### How to sync volume on Android?

- Find "Settings" on the phone
- Enable "Bluetooth"
- Connect with "T62"
- Click on the "Set button"

### Battery Warning

Using the wrong battery can cause fire and other hazards (for example, in the case of some lithium battery types).

- Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery that can result in an explosion.
- Do not leaving a battery in an extremely high temperature surrounding environment that result in an explosion or the leakage of flammable liquid or gas.
- A battery subjected to extremely low air pressure that may result in an explosion or leakage of flammable liquid or gas.

#### Storage and Maintenance

- If the earbuds have been unused for more than 3 months, we recommend that you charge them.
- Please use chargers that are FCC (Federal Communications).
- Do not disassemble earbuds.
- Adult supervision is required for children aged 6 and under.
- Do not expose earbuds to high or low temperature, do not use the earbuds in thunderstorm storm. Avoid falling or violent impact of the device. Keep the device away from fire, do not put.

### FCC Caution

Changes or modifications not expressly approved by the party responsible for compliance may void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference with radio communications. However, there is a guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference with radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to attempt to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase separation between equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
