

VL-20C RGB LED panel light

Thanks to choose VL-20C RGB LED panel light.

Mettle VL-20C RGB LED panel light build in lithium battery. It has advantages of soft light, high luminous efficiency, long life, outstanding color rendition. Meanwhile it has a variety of effect functions, and can be controlled by mobile phone APP. The light is widely used in digital photography, film and TV shooting, studio video photography.

Structure

1 LCD display	2 USB port	3 Multi-function button
4 Power button	5 1/4" mount	6 LED device

Specification

Power	20PCS RGB LED	Color (Lux@1m)	Illuminance (Lux@1m)	R	G	B
	20PCS W/Y LED			53	170	28
Max output(W)	6W	Remote distance				>10m
Color temperature	2800-8000K	Mode				CCT/HSI/GEL/EFX/SET
Illuminance (Lux@1m)	130	Master/Slave				YES
CRI	≥95	Smartphone control				YES
TLCI	≥95	build in battery				3.7V 2500mAh
Charge	USB 5V	Weight				124g
Size	94×87×30mm					

Method of Application

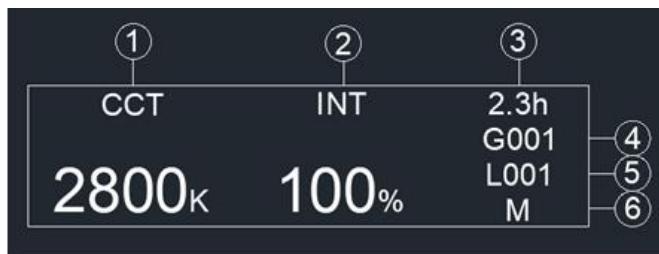

1. Operation

Press Power button (4) to turn on. Press Multi-function button (3) to switch light mode.

1.1 CCT mode

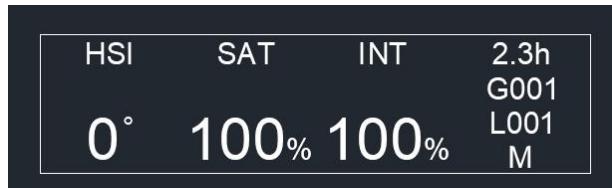

Long press Multi-function button (3), enter menu. Switch Multi-function button (3), enter “CCT” mode on the upper left corner of screen.

Short Press Multi-function button (3) to select parameter. Switch Multi-function button (3) to adjust CCT or power.

- ① CCT adjustment
- ② Power adjustment
- ③ Battery indicator
- ④ Group No.
- ⑤ Light No.
- ⑥ Master/Slave

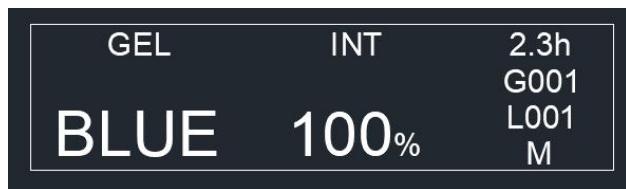

1.2 HSI mode

Long press Multi-function button (3), enter menu. Switch Multi-function button (3), enter “HSI” mode on the upper left corner of screen.

Short Press Multi-function button (3) to select parameter. Switch Multi-function button (3) to adjust Hue, Saturation and Intensity.

1.3 GEL mode

Long press Multi-function button (3), enter menu. Switch Multi-function button (3), enter “GEL” mode on the upper left corner of screen.

Short Press Multi-function button (3) to select parameter. Switch Multi-function button (3) to adjust corresponding “GEL” mode and Intensity.

1.4 EFX mode

Long press Multi-function button (3), enter menu. Switch Multi-function button (3), enter “EFX” mode on the upper left corner of screen.

Short Press Multi-function button (3) to select parameter. Switch Multi-function button (3) to adjust corresponding “EFX” parameter.

1.5 SET mode

Long press Multi-function button (3), enter menu. Switch Multi-function button (3), enter “SET” mode on the upper left corner of screen.

Short Press Multi-function button (3) to select parameter. Switch Multi-function button (3) to adjust corresponding “SET” parameter.

FCC STATEMENT:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
