

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Conducted Emission Test Setup*	 A photograph showing a conducted emission test setup. On the left, a wooden bench holds a spectrum analyzer and a power supply. A power cord connects the power supply to a device on the right. The device is a small, rectangular, light-colored unit with a red terminal block. The background is a plain wall with a power outlet.
Radiation Emission View (30MHz to 1GHz)	 A photograph showing a radiation emission test setup. A yellow, rectangular, shielded enclosure is mounted on a metal stand. The enclosure is surrounded by a grid of white, square-shaped absorbers. The floor is a dark, polished surface. A yellow and black striped caution tape is visible on the floor.
