Eurofins MET Labs  
914 West Patapsco Avenue  
Baltimore, MD 21230

Dear Eurofins:

The size of the product label for FreightLucid's Hatch Sensor Unit is 2 inches in width, by 2 inches in length. Adding the required FCC 15.19 caution statement below, along with the current required information on the product label, would make the text too small and unreadable. Due to the size limitation, we require that the FCC 15.19 caution statement be placed in the "TRHT-01 Hatch Sensor Unit Installation Instructions" document and not on the product label.

FCC 15.19 caution statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Respectfully,

James Talley  
Principle IoT Solutions Architect
