

## Device Information

U1U0B8 is an NFC module operating at 13.56 MHz. Its an accessory for A2D0US and enables payments/authentication.

Device is powered from USB and operates at 5V. Maximum current consumption is less than 250mA.

## Safety Information

Read all Safety Instructions before installation.

FAILURE TO FOLLOW THESE SAFETY INSTRUCTIONS COULD RESULT IN FIRE, ELECTRIC SHOCK, OR OTHER INJURY, OR DAMAGE.

The device is for indoor use only.

Do not use the device in wet or damp locations.

Do not use the device if the USB cable is broken, damaged or fried.

Changes or modifications not expressly approved by Nalloy LLC could void the user's authority to operate the equipment

## United States

Responsible party (contact for FCC matters only): Nalloy LLC, 859 Willard Street, Suite 400, Quincy, Massachusetts 02169

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: —Reorient or relocate the receiving antenna. —Increase the separation between the equipment and receiver. —Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. —Consult the dealer or an experienced radio/TV technician for help.

To meet RF exposure requirements, this device needs to be placed at least 20 cm away from the body of the user as well as other radio antennas.

FCCID: 2AVOB-U1U0B8

\*\*\*Innovation, Science and Economic Development Canada (ISED) Compliance\*\*

"This device contains license-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's license-exempt RSS(s). Operation is subject to the following two conditions:

- 1.This device may not cause interference; and
- 2.This device must accept any interference, including interference that may cause undesired operation of the device."

\*\*\*Conformité Innovation Sciences et Développement \*\* Économique Canada \*\* (ISDE)\*

"L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- 1.l'appareil ne doit pas produire de brouillage; et
- 2.l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement. "

\*\*\*Information Regarding Exposure to Radio Frequency Energy:\*\*

This equipment complies with IC RSS-102 RF exposure limits set forth for an uncontrolled environment."

"Renseignements relatifs l'exposition l'énergie des radiofréquences

Cet équipement est conforme aux limites d'exposition IC CNR-102 prévues pour environnements non contrôlés

To meet RF exposure requirements, this radio module needs to be placed at least 20 cm away from the body of the user as well as other radio antennas.
