## Loading Paper Label Tapes

---

1. Slide the release tab to open the lid.

2. Place the label roll inside with the print side facing up.

3. Pull out approximately 0.2" (5mm) of label tape. Close the lid.

4. Press and hold the power button for 3 seconds to turn on. Slide the built-in cutter upward to cut the label.

# Pairing Your Printer via Bluetooth®

---

Fully charge before initial use and make sure to disconnect from other nearby paired devices.

1. Press and hold the power button for 3 seconds to power on.

2. Download the free CorePrint app by searching for it on the App Store® or Google Play™. No sign up necessary.

3. Tap Connect

4. Select Label Maker

5. Tap to connect

## FCC Warning

---

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged

## FCC Warning (Continued)

---

to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

## Product Specifications

---

Battery Capacity: 1200mAh

Printing Type: Inkless Thermal

Print Color: Black

Bluetooth® Version: 5.3

Image Quality: 200 DPI

Charging Input: USB-C®
