Subject: Request for Confidentiality

FCC ID: 2AVVU-TOKEN-01, Model TOKEN1

To whom it may concern:

Pursuant to the provisions of Sections 0.457 and 0.459 of the Commission's rules (47 CFR §§ 0.457, 0.459), Tokenize Inc. hereby requests confidential treatment for documents filed with the Commission in connection with the application for equipment authorization referenced above.

Permanent Confidentiality

Tokenize, Inc. requests that the Commission withholds the following documents from public viewing indefinitely:

- Block Diagrams
- Electrical Schematic Diagrams
- Technical Description

These documents reveal detailed technical and design information that is protected by Tokenize Inc., as confidential and proprietary trade secrets. This information has been disclosed to those required to maintain its confidentiality, and is not customarily disclosed to the public even after commercial release of the device. As a result, disclosure of this information by the Commission would harm Tokenize Inc. by giving competitors an unfair advantage even after commercial release of the device.

Short Term Confidentiality

In addition to the above cited documents, pursuant to Public Notice DA 04-1705 of the Commission's policy, in order to comply with the marketing regulations in 47 CFR §2.803 and the importation rules in 47 CFR §2.1204, while ensuring that business sensitive information remains confidential until the actual marketing of newly authorized devices, Tokenize Inc. requests that the Commission withholds the following documents from public viewing for one hundred eighty days after the date of the grant of equipment authorization is issued:

- External Photographs
- Internal Photographs
- Test Setup Photographs
- User Manual

These documents reveal technical and design information that has not been publicly disclosed in marketing materials and is protected by Tokenize Inc. as confidential and proprietary trade secrets. This information has been disclosed to those required to maintain its confidentiality, and is not customarily disclosed publicly prior to the commercial release of the device. As a result, disclosure of this information by the Commission prior to release would harm Tokenize Inc. by giving competitors an unfair market advantage. Tokenize Inc. believes the period of confidentiality requested is necessary to protect the information until the commercial release of a device.

It is our understanding that measurement test reports and FCC ID label format cannot be granted as confidential documents and this information will be available for public review once the grant of equipment authorization is issued.

Sincerely,

A handwritten signature in black ink that reads "Richard Lourette".

Richard Lourette
