RE: CONFIDENTIALITY REQUEST FOR PLASMA CARE

To Whom It May Concern:

This letter serves as an official request for confidentiality under sections 0.457 and 0.459 of CFR 47. We have requested that the

- (1) Block Diagram/Mechanical Drawings
- (2) Schematics/PCB Layouts
- (3) Theory of Operation/Technical Description
- (4) Parts Lists/BOM

required to be submitted with this application be permanently withheld from public review.

These documents contain detailed system and equipment description and related information about the product which terraplasma medical GmbH considers to be proprietary, confidential and a custom design and otherwise would not release to the general public. Since the design is a basis from which future technological products will evolve, terraplasma medical GmbH considers that this information would be of benefit to its competitors and that the disclosure of the information in these documents would give competitors an unfair advantage in the market.

Please contact me if there is any information you may need.

Sincerely,

terraplasma
