

User Manual

Model: **L5B83G**

This product is a Bluetooth Low Energy technology enabled Remote Control for use with a paired Media Player.

Operating Frequency Range: 2402 – 2480 MHz

Maximum Effective Isotropic Radiated Power (EIRP): 10dBm

WHAT'S IN THE BOX

- Marketing Name: Wireless Remote, Model L5B83G
- 2xAAA Batteries

Setting up the device

- Insert the batteries and install the compartment cover
- Pair the device with the host. Choose the applicable pairing instructions from options A or B below:
 - A. This is a *replacement* remote control:
 1. Restart your Media Player / TV USB Stick by disconnection from and then reconnection to the AC power. After the TV home screen displays your new remote it is ready for pairing.
 2. Press and hold the Home button on the new remote for at least 10 seconds. The new remote should automatically pair with your TV USB stick. You will see an on-screen message when it has successfully paired.
 - B. This is an *additional* remote control:
 1. On your *new* remote, press and hold the Home button for 120 seconds to enter discoverable mode.
 2. You must use your *existing* remote for the following steps.
 - a. Press the Home button.
 - b. Navigate to the Settings location at the top of the Media Player TV screen. Select Controllers and Bluetooth Devices > TV Remotes > Add New Remote. The Media Player application will search for discoverable remotes and display them in a list.
 - c. Select the new remote. You will see an on-screen message when it has been successfully paired.

Use your Voice Search

- Hold down voice search button and speak

Safety and Compliance Information

For safety, compliance, recycling, and other important information regarding your Device, please refer to the Legal & Compliance section in the User Manual.

Caution: risk of explosion if the batteries are replaced by an incorrect type. Dispose of used batteries according to the instructions.

Using Your Device Around Other Electronic Devices

The Device, uses, and can radiate radio frequency (RF) energy and, if not used in accordance with its instructions, may cause interference to radio communications and electronic equipment. External RF signals may affect improperly installed or inadequately shielded electronic operating systems, entertainment systems, and personal medical devices.

While most modern electronic equipment is shielded from external RF signals, if in doubt, check with the manufacturer. For personal medical devices (such as pacemakers and hearing aids), consult with your physician or the manufacturer to determine if they are adequately shielded from external RF signals.

There are some places where RF signals could constitute a hazard, such as health care facilities, and construction sites. If you are not sure, look around for signs indicating that two-way radios or mobile phones should be turned off.

FCC – regulatory user information

This equipment complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Modifications of the equipment which are not expressly approved by the party responsible for its compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Innovation, Science and Economic Development Canada (ISED) – regulatory user information

This device contains license-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's license-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference; and
2. This device must accept any interference, including interference that may cause undesired operation of the device.

Conformité Innovation Sciences et Développement Économique Canada (ISDE)

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

1. l'appareil ne doit pas produire de brouillage; et
2. l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

EU Declaration of Conformity:

Hereby, Amazon.com Services LLC., declares that the radio equipment type L5B83G is in compliance with Directive 2014/53/EU.

The full text of the EU declaration of conformity is available at the following internet address: www.amazon.com/device_eu_compliance.

Brazil Compliance Warning Statement

HHHHH-AA-FFFF

Requirements for products with Bluetooth/wifi:

Este equipamento não tem direito à proteção contra interferência prejudicial e não pode causar interferência em sistemas devidamente autorizados.

Mexico Compliance Warning Statement

La operación de este equipo está sujeta a las siguientes dos condiciones: (1) es posible que este

equipo o dispositivo no cause interferencia perjudicial y (2) este equipo o dispositivo debe aceptar cualquier interferencia, incluyendo la que pueda causar su operación no deseada.
