

SOLANA Saga

Quick Start Guide

Quick Start Guide

- 1 SIM tray placement
- 2 Dual SIM trays
- 3 Power button
- 4 Finger print scanner
- 5 Volume up
- 6 Volume down
- 7 USB-C port

Getting Started

If migrating from an iPhone, deregister/disable iMessage before setup, or you may not receive all text messages on your new Saga. For more information: <https://selfsolve.apple.com/deregister-imessage/>

Step 1: This phone is powered by Android™. Set up your device like any other smartphone.

Step 2: Press and hold the power button for four seconds.

Step 3: Follow the prompted instructions to connect to the internet and finish the setup process — the steps are the same as they are for any other phone.

Step 4: Create a Seed Phrase in the Seed Vault (Settings → Seed Vault). This lets you use the Solana dApps store and can later be linked to a wallet.

Regulatory information

Certification details, compliance markings, and other regulatory information can be found on your phone itself under Settings → About phone → Legal information.

This device was made in compliance with the rules and regulations governing the use of radio frequency-emitting consumer electronic equipment. However, local laws and/or rules may vary — for example, in the case of airplanes. Please follow all instructions or laws required when operating the Solana Saga.

FCC Compliance

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful

interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a

particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications not expressly approved by OSOM Products could void the user's authority to operate the equipment.

Responsible party:

Solana Mobile

530 Divisadero St PMB 722

San Francisco, CA 94117

Radio Frequency Exposure

This device has been tested and approved for use under regulatory requirements for RF (radio frequency) exposure to operate at a safe level and not exceed mandated limits. RF compliance information is displayed under Settings → About phone → Regulatory labels.

Hearing Aid Compatibility

This device has been evaluated and certified as compatible with hearing aids as per ANSI C63.19-2011 to a level of M4/T4 — the M rating indicating the level of performance

with a hearing aid on the microphone setting (acoustic coupling), and the T rating indicating the level of performance with a hearing aid on the telecoil setting (inductive coupling).

The FCC considers a rating above M3/T3 as hearing aid-compatible. However, there may be features or functionality present that have not been tested for use with hearing aids. Consult your service provider or phone retailer for more information.

Safety Notice

This product is powered by a lithium-ion polymer battery. If handled incorrectly, lithium ion batteries may leak flammable gas, catch fire, or explode. Do not expose the battery to fire, excessive heat, vacuum, or extremely low ambient pressure. Do not cut, puncture, or cause

any other physical damage to the battery. If battery replacement is necessary, an identical model must be used to ensure safe operation. Recycle and dispose of batteries safely in accordance with your local laws.

Safe input levels for the battery are:

**USB Type-C: 5V/3A, 9V/2.22A,
12V/1.67A. 20W max.**

Wireless Charging: 10V/1.5A. 15W max

United States

California notice WARNING: This product or its packaging can expose you to chemicals including Bisphenol A (BPA), which are known to the state of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov

Product information

Model: 200731A

Input:

Type-C: 5Vdc/3A, 9Vdc/2.22A,
12Vdc/1.67A, 20W max.

Wireless charging: max. 10Vdc,
1.5A. max. 15W.

Safety hints

Altitude during operation (3000m).

The maximum ambient
temperature during use of the
appliance must not exceed 50 °C.

The ventilation must not be
impaired by covering the appliance
with items such as newspapers,
table cloths, curtains, etc.

Naked flame sources, such as
candles, must not be placed on the
appliance.

'Warning'

1. The battery pack with the wrong model cannot be replaced;
2. Do not put the battery into fire or heating furnace, or mechanically extrude or cut the battery for disposal;
3. The battery shall not be placed in an extremely high temperature environment that may cause battery explosion or leakage of flammable liquid or gas;
4. The battery shall not be subjected to extremely low air pressure that may cause explosion or leakage of flammable liquid and gas.

Symbols used:

Indoor use only

The appliance shall not be disposed together with the normal waste. It must be recycled.

This phone has been tested and certified for use with hearing aids for some of the wireless technologies that it uses. However, there may be some newer wireless technologies used in this phone that have not been tested yet for use with hearing aids. It is important to try the different features of this phone thoroughly and in different locations, using your hearing aid or cochlear implant, to determine if you hear any interfering noise. Consult your service provider or the manufacturer of this phone for information on hearing aid compatibility. If you have questions about return or exchange policies, consult your service provider or phone retailer.
