

**USER GUIDE**

# iAuditor Sensors

Say goodbye to manual temperature and humidity checks! With iAuditor Sensors you can monitor your assets in real-time 24/7, receive alerts when things go out of critical range, and record all of your data automatically.

## Self-Installation Guide

Follow this guide to setup your iAuditor sensor

<https://support.safetyculture.com/sensors/iauditor-sensor-self-installation-guide/>

## Online Setup

To setup the sensor online head over to [www.sfty.io/setup](http://www.sfty.io/setup)

-  2+ years battery life
-  Wide temperature range
-  Weatherproof casing
-  Long range connectivity
-  Easy-mount bracket
-  Readings every 10 minutes

## Compliance Statement

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operations of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence.

L'exploitation est autorisée aux deux conditions suivantes :

1. L'appareil ne doit pas produire de brouillage;
2. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions

1. This device may not cause interference; and
2. This device must accept any interference, including interference that may cause undesired operation of the device.

This equipment complies with the FCC and ISED radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance 20cm between the radiator and all persons' body during normal operation.

Cet équipement est conforme aux limites d'exposition aux rayonnements FCC et ISED établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé à plus de 20 cm entre le radiateur et votre corps.

Warning: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.
