POWER OUTPUT DISPLAY

The Power Tower includes a built-in power output display that shows the current wattage the power tower is distributing. Depending on the device being charged and it's charging capabilities the Power Tower will automatically adjust it's output. Note, some devices will charge at different wattages depending on the battery level of the device being charged and the devices charging capabilities.

For example, an iPhone may charge at 20W when it's battery is completely depleted but may only charge at 5W when the battery is at 92%.

The output wattage may change if the mobile device is being used or turned on while being charged. This is especially true for larger devices such as laptops or tablets, as well as devices with large batteries.

▲ NOTE: Fluctuating numbers on the output display is normal. Mobile devices will dictate how many watts are drawn from the Power Tower while charging.

OUTPUT CAPABILITIES

Total Power: 85W
USB-C 1+USB-C 2= 45W+20W
USB-C 1/C 2+USB-A 1/A 2= 65W+18W
USB-C 1/C 2+Cable 1/2= 65W+20W
USB-C 1+USB-C 2+Cable 1/2= 45W+20W+20W

AC Input: 100-240V~ 50/60Hz, 6A Max
AC Output: 100-240V~ 50/60HZ, 6A Max
Wireless Output: 15W Max

USB-C 1/USB-C 2 Output: 5V≐3A, 9V≐3A, 12V≐3A, 15V≐3A, 20V≐3.25A (65W Max)
USB-A 1/USB-A 2 Output: 5V≐3A, 9V≐2A, 12V≐1.5A (18W Max)
USB-C Cable 1/USB-C Cable 2 Output: 5V≐3A, 9V≐2.22A, 12V≐1.67A (PD20W)

LOCATION OF CONTROLS

LOCATION OF CONTROLS	
1.	Qi2 Wireless Charging Pad
2.	LCD Power Output Display
3.	AC Plug
4.	USB C Ports
5.	USB A Ports
6.	Retractable Cables
7.	Power Cord

CHARGING DEVICES

USING THE BUILT-IN CABLES

To charge a mobile device using the power tower connect the built-in USB-C Cable to the charging port on your mobile device by pulling on the retractable cable, pull again when done charging to have the cable return.

▲ NOTE: When pulling the retractable cables to charge or return, hold the Power Tower with one hand while pulling with the other hand to prevent the Power Tower from falling or moving.

USING THE USB OUTPUT PORTS

To charge a mobile device using the USB A or USB C output ports, connect your mobile device's USB A/USB C Charge and Sync cable to your mobile device, then connect the USB end (Standard size) or Type-C end of the cable to the Power Tower. For best results use the charge/sync cable that was included with your device when purchased.

USING THE WIRELESS CHARGING PAD

Place your mobile phone on the charging pad, if your phone has a built-in magnet, make sure it aligns with the magnet on the charging pad as shown below.

When charging, the wireless charging icon (⚡) will illuminate on the power outlet display. The time it takes to charge any device using the Power Tower will vary by device and the amount of other devices being charged simultaneously.

▲ NOTE: Distance between your mobile device and the charging pad should be no more than 6mm, most phone cases should not obstruct phone charging unless they are more than 6mm thick. Make sure there are no magnets or cards between your device and the charging pad, any types of metal will obstruct charging.

▲ NOTE: Increased or warm temperature on a mobile device or the wireless charging pad while charging is normal.

▲ NOTE: Wireless charging only compatible with mobile devices that support Wireless charging.

SAFETY INSTRUCTIONS

FAILURE TO FOLLOW THE SAFETY INSTRUCTIONS CAN LEAD TO FIRE, ELECTRICAL SHOCK, PERSONAL INJURY OR PROPERTY DAMAGE OR DAMAGE TO THIS PRODUCT. MAKE SURE TO READ THE ENTIRE MANUAL.

- Do not use this unit for anything other than its intended use.
- Do not expose the unit to extremely high or low temperatures.
- Use the product in a location with a temperature of 32 F (0C) - 95 F (35 C)
- Do not let the unit come in contact with water or any other liquid. If the unit becomes wet, immediately unplug it from the power source.
- Do not handle unit, USB cord or wall charger with wet hands. Do not let dust or other things accumulate on the product.
- Do not use the unit if it has been dropped or damaged in any way.
- Repairs to electrical equipment should only be performed by a qualified electrician. Improper repairs may place the user at serious risk.
- Use the specified power source and voltage.
- Do not use voltage converter/travel adapter.
- Keep out of reach of children.

- If you have an electrical device such as a pacemaker, consult a physician before using this product.
- Do not place magnetic cards or similar items near this product.
- Do not place the mobile device on a wireless charger with conductive materials between them, such as metal objects and magnets (some cases may have metal inserts).
- Phone case friendly; 1-6mm, if the phone case is too thick, remove

FCC STATEMENT

DECLARATION OF CONFORMITY WITH FCC RULES FOR ELECTROMAGNETIC COMPATIBILITY

This device complies with Part 15 of the FCC Rules. Operation is subject to the two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Federal Communications Commission Notice:
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try and correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.
Increase the distance between the equipment and the receiver.
Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

WARRANTY

Bayit Home Automation Corp. ("Bayit") warrants to the original purchaser of this Tech2 product that the product shall be free of defects in design, assembly, material, or workmanship. Bayit warrants the Tech2 product for one (1) year for devices bought in U.S.

Product Warranty Bayit will repair or replace, at its option and free of charge (except for shipping charges for the product) any defective Tech product. Bayit reserves the right to discontinue any of its products without notice, and disclaims any limited warranty to repair or replace any such discontinued products. In the event that Bayit is unable to repair or replace the product (for example, because it has been discontinued), Bayit will offer either a refund or a credit toward the purchase of another product in an amount equal to the purchase price of the product as evidenced on the original purchase receipt as discounted by its natural use or offer a similar product at Bayit's discretion. No warranted will be honored unless the purchaser provides, at the purchaser's expense, the product for inspection.

No warranties will be honored if Bayit determines that the product has been improperly installed, altered in any way, or tampered with. The Bayit Product Warranty does not protect against acts of God such as flood, lightning, earthquake, war, vandalism, theft, normal-use wear and tear, erosion, depletion, obsolescence, abuse, damage due to low-voltage disturbances (i.e. brownouts or sags), non-authorized program, or system equipment modification or alteration. Bayit reserves the right to review the damaged Tech2 product. All costs of shipping the Tech product to Bayit for inspection are the sole responsibility of the purchaser. If Bayit determines, in its sole discretion, that it is impractical to ship the damaged product to Bayit, Bayit may designate, in its sole discretion, an equipment repair facility to inspect and estimate the cost to repair such product. Any cost of the estimate or shipping the product to and from a repair facility is the purchaser's responsibility. Damaged product must remain available for inspection until the claim is finalized. Whenever claims are settled, Bayit reserves the right to be subrogated under any existing insurance policies the purchaser may have.

THIS WARRANTY CONTAINS THE SOLE WARRANTY OF BAYIT. THERE ARE NO OTHER WARRANTIES, EXPRESSED OR, EXCEPT AS REQUIRED BY LAW, IMPLIED INCLUDING THE IMPLIED WARRANTY OR CONDITION OF QUALITY MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, AND SUCH IMPLIED WARRANTIES, IF ANY, ARE LIMITED IN DURATION TO THE TERM OF THIS WARRANTY.

Some states do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you.

IN NO EVENT SHALL BAYIT BE LIABLE FOR INCIDENTAL, SPECIAL, DIRECT, INDIRECT, CONSEQUENTIAL OR MULTIPLE DAMAGES SUCH AS, BUT NOT LIMITED TO, LOST BUSINESS OR PROFITS ARISING OUT OF THE SALE OR USE OF ANY BAYIT PRODUCT, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. This warranty gives you specific legal rights, and you may also have other rights, which may vary from state to state. Some states do not allow the exclusion or limitation of incidental, consequential, or other damages, so the above limitations may not apply to you.
