#### Getting started

##### Set up in 4 easy steps

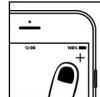

*Before you start write down your network name & password.*

*Note: this item only works on a 2,4GHz WiFi network, not on a 5GHz WiFi network.  
Please consult the manual of your router for settings.*

1. Download the Smart Life app from the Google Play store, the Apple Store .

2. Open the app. First time user? Follow on-screen instructions to create your account. To add this device start by touching 'add device' (+) and follow the on-screen instructions. Turn the device on by switching to the 'ON' status. Sensor warms up for 30 seconds. LED goes out.

3. Locate the reset button (1). Turn the device on by pressing the reset button for 5 seconds. The red indicator light will start rapid flashing.
4. Follow the on screen prompts to finish installation

*If you get the notification the product only works on 2,4GHz networks you should change the WiFi-frequency of your network to 2,4GHz only in the setting menu of the router.*

##### FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

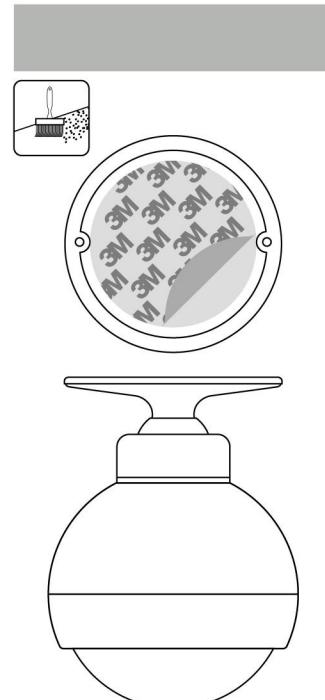

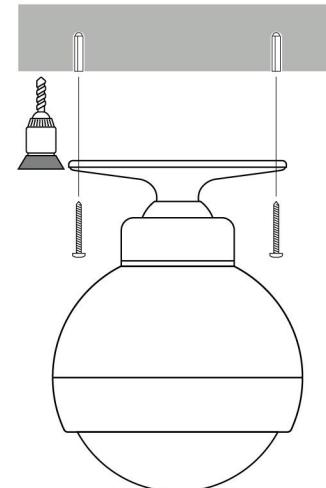

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
