

User Manual

Wireless Charger

⚠ Kindly Remind

- We recommend QC3.0 fast charger adapter (supporting 12v) for better charging effect. Other chargers may not work well with the device.
- Using an ultra-thick protective phone case or a case with a magnetic/iron plate is not recommended as it may affect the wireless charging function.
- Make sure the phone is on the middle of charging area.

Package include

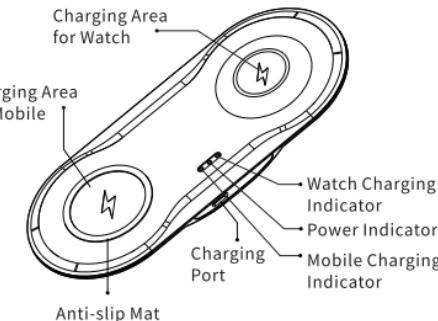

- Wireless Charger X 1
- USB Charging Cable (Type-c) X 1
- User Manual X 1

Instructions:

1. Connect the charger with the USB cable and power on
2. Put your Qi-enabled mobile phone or watch on the charger.
3. The charging indicator will light up when charging.

Product Specification

Material	ABS
Size	180*80*8.8mm
Input	5V/3A, 9V/2A
Output	<ul style="list-style-type: none">• 10W / 7.5W / 5W• Apple Watch
Working Distance	4-8mm
Charge Efficiency	≥ 75%
Applicable Device	<ul style="list-style-type: none">• All device must be Qi standard• Apple Watch

Important Safety Instructions

- Avoid dropping.
- Do not disassemble.
- Do not expose to liquids.
- For the safest and fastest charge, use original or certified cables.
- This product is suitable for moderate climates only.
- The maximum ambient temperature during use of this product must not exceed 40°C.
- Open flame sources, such as candles, must not be placed on this product.
- Only use a dry cloth or brush to clean this product.

Warranty

We provide 18 months warranty for the Wireless Charger. This warranty will become void if the equipment is altered, misused, mishandled, maladjusted or suffers excessive wear.

If you have more questions, please do not hesitate to contact us.

FCC regulatory conformance:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a **Class B** digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

RF Exposure

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance of 20 cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
