Photo 4

A photograph of a green, curved printed circuit board (PCB) against a blue background. The PCB features three square components, likely sensors or microchips, mounted along its length. Various markings are visible, including "202011218", "LY1107-32881-U2.0", "M2:14", "TX", "RX", "GND", and "VCC". There are also circular holes and a small circular feature at the right end.
