
FAST WIRELESS CHARGE

Universal wireless charging for Qi-enabled smartphones

2X MORE POWER FOR A FAST CHARGE

User Manual

JMDW001

Quick wireless charger user guide

Thank you for choosing our product!

It is a wireless smartphone charger that allows you to easily enjoy the use of digital products. Read the instruction manual before use and keep it for future reference.

Connection to the adapter

1. Connect the adapter to the socket. The wireless charger can choose to work vertically or horizontally. If you choose the vertical, you need to open the rear bracket and hear the sound of click

2. Connect the adapter to the USB 2.0 interface, and a second USB Type-C connector for a wireless charger.

Standby: LED is off

Switching on: the LED light flashes 3 times and then goes out

Charging: LED light is on and flashes once every 2 seconds

FOD (foreign object detector): the LED light flashes once every second until foreign objects disappear

Full charge: Green LED light up (on some models)

Sketches show the final product.

The product packaging contains: a wireless charger, charging cable

manual user instructions.

-
- The network adapter is not included in the set, please buy separately or, if necessary, use the original sticker on your cell phone.

Specification

Input: 5V /2A 9V/1.6A Receiving distance:2-10mm

Output phone: 5W-7.5W-10W Conversion: $\geq 73\%$

Output watch: 3W Frequency: 100-205KHz

NW: 1529 Size: 12.8*10*1cm

Compatibility

Apple phone: iPhone 11/11P/11MAX/Xs/MAX/XR/X/8/8 Plus

Samsung phone: Galaxy Note 10+/10/9/8/7 /5/S10+/S10/S9/S9 Plus/S8/S8 Plus/S7IS7 edge/S6 edge plus

Any one of the QI protocol phones can support

Headphones: Apple original headsets Air pods

Notes:

Please pay attention to the following issues, otherwise it may cause abnormal charging, high charging temperature, intermittent charging, or even not charging.

1. Please put the phone/watch at the center of charge area

2. Please use common USB Cable or original cable, Otherwise, it may result to danger. When you use a charger for charging, adapter shall be installed near the equipment and shall be easily accessible. We recommend QC2.0/3.0 Quick charger adapter (9V /1.67 A). 5V/2A is normal charge, the charging speed would be slower.) :The product shall only be connected to a USB interface of version USB2.0

3. The charging distance is 2-10 mm, please don't wear protective case which is over 3mm thick.

4. No metal or magnetic objects around 6cm at the back center of the phone during charging.

5. The lower temperature, the faster charging speed. The charging speed is faster in winter than in summer.

6. Please don't charge in high temperature and humid environments to avoid damage of circuit.) : **Extreme Temperature:** 45°C max.

7. Put it at the place that children can't reach to avoid unnecessary accidents.

The involved images are sketch maps, the final product as per the material subjects

includes: wireless charger, 100cm power cable, user manual

*No power adapter, if you need, please purchase separately

FCC Statement:

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

--Reorient or relocate the receiving antenna.

--Increase the separation between the equipment and receiver.

--Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

--Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance of 20 cm between the radiator & your body.
