

433MHz弹簧技术指标 / 433MHz spring technical specifications

型号 (Model): Spring Antenna 433MHz 0.5\*4.5\*17mm 25T ROHS

主要技术参数 Electrical Data

重量Weight(g):  $0.55 \pm 0.05$

高度Height(mm):  $17 \pm 1$

线径Diameter(mm):  $0.5 \pm 0.02$

天线颜色 Color: 铜

材质Material: 黄铜

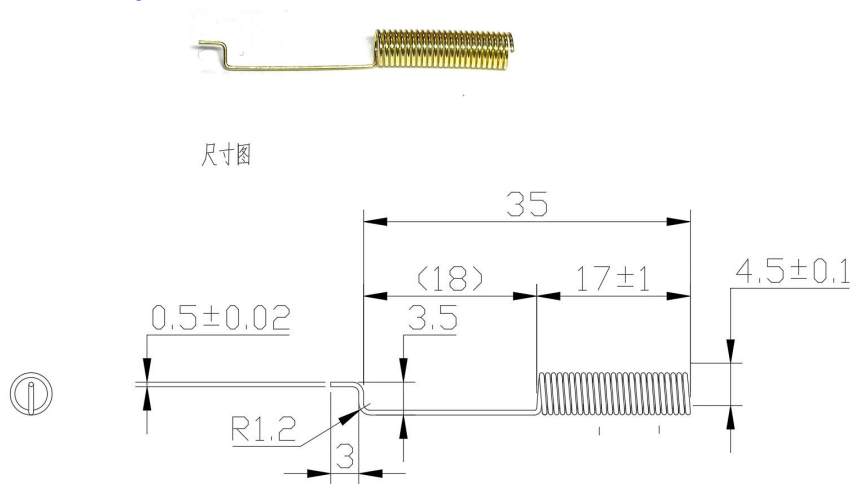

产品说明 Product Description:

Spring Antenna 433MHz 0.5\*4.5\*17mm 25T ROHS Spring antenna, This is a dedicated antenna designed for the 433MHz wireless data transmission system. It has excellent antenna standing wave ratio performance, precise size, compact shape, ingenious structure, easy installation, stable performance, and excellent vibration prevention and anti-aging capabilities.

Before leaving the factory, all the springs have been strictly inspected by the quality department of our factory.

It is recommended that the welding machine be set to a temperature of 300 degrees Celsius.

Antenna dimension diagram:

Material: Brass Wire diameter: 0.5mm Number of loops: 25

The weld leg should be bent into an arc with a radius of 1.2 mm.
