90 day warranty

This product is warranted to be free from defects in material and workmanship for a period of ninety (90) days from the date of original purchase. During this period, you exclusively need to repair or replacement of this product or component if it is defective, at our option; however, you are responsible for all costs associated with returning the product to us. If the product or component is no longer available, we will replace with a similar one of equal or greater value. Prior to replacement being sent, the product must be rendered nonoperable or returned to us.

This warranty does not cover glass, filters, wear from normal use, use in nonconformity with the printed directions, damage to the product resulting from accident, alteration, abuse, or misuse. This warranty extends only to the original consumer purchaser or gift recipient. Keep the original sales receipt as proof of purchase is required to make a warranty claim. This warranty is void if the product is used for other than single-family household use or subjected to any voltage and waveform higher than the specified rating on the label (e.g., 120V/60Hz).

We exclude all claims for special, incidental, and consequential damages caused by breach of express or implied warranty. Liability is limited to the amount of the purchase price. Every implied warranty, including any statutory warranty or condition of merchantability or fitness for a particular purpose, is disclaimed except to the extent prohibited by law, in which case such warranty or condition is limited to the duration of this written warranty. This warranty gives you specific legal rights. You may have other legal rights that vary depending on where you live. Some states or provinces do not allow limitations on implied warranties or disclaimers, or limitations on consequential damages, so the foregoing limitations may not apply to you.

For faster service, locate the model, type, and serial number on your appliance.

7

HOW TO WORK FOR SPEAKER PAIRING TWS MODE

MICROPHONES CONNECTED

Connect 3.5mm wired microphone (not included) to the MIC input of the unit, and then you are ready to sing along with your bluetooth smart device.

8

AUX INPUT CONNECTION

Power on this unit and switch mode to Bluetooth mode, do not connect to any Bluetooth devices. Inserted 3.5mm cable into this MIC jack, the other side connected to external audio devices, turned up the volume over 70% from external audio devices. Now you can play music from AUX in mode.

Note: Due to this 3.5mm jack combine with microphone and AUX IN features, the sound may have a little echo when played music from AUX IN mode. If you want better sound, please play music via Bluetooth mode.

FCC Warning**15.19 Labeling requirements.**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

15.21 Information to user.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RF Radiation Exposure Statement:

1. This Transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
2. This equipment complies with RF radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
