

# Smart Bracelet Instruction

Please read this user manual carefully before use

## Binding Bracelet

In order to ensure pairing of devices successfully, the mobile phone should be kept close with the device.

1. Scan the QR code below or search "Skyring Health" through mobile app market , follow the prompts to download and install.

Mobile system requirements: Android 4.3 / iOS 9.0 and above.

2. Open the downloaded app, create and log in the account, and select adding devices on the "device" page to complete the addition and pairing of devices.

## How to wear it

The best Bracelet should be worn behind styloid process of ulna.

1

## 1. Operation method:

Make sure the power of your bracelet is normal for the first time. If the device can't be started normally with low power, please charge the device. The bracelet will start automatically.

## 2. Charging mode:

- (1) Remove the strap from the bracelet body;
- (2) Put the end of the main body of the bracelet with the charging metal into the USB port to make the charging metal contact with the metal in the USB port, so as to charge correctly (please pay attention to the direction).

## 3. Device connection:

The first time you use the bracelet, you need to connect the app for calibration. After the connection is successful, the bracelet will automatically synchronize the time, otherwise the time is not accurate and the data cannot be transmitted.

## FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular

installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
