Subject: Tune-Up Information (Transmitter Power Output Tolerance)
FCC Number: 2AWGH-M7B-Q95-B

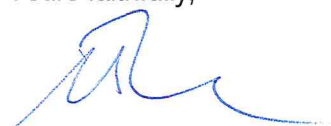

To whom it may concern

We, ubisys technologies GmbH, hereby attest that the model: BLEnd/Z, has the following transmitter maximum conducted output power, with tune up tolerance, at the antenna connector) that is set in the factory, to be:

8 dBm on all IEEE 802.15.4 and BLE channels. The TX output power variation over the temperature and voltage range is +/- 1.5dB.

Once the device has left the factory, the user does not have access to the device to alter the output power.

Yours faithfully,

M. Sc. Markus Proske
Senior Engineering Manager
