

BROAGE NBOOK

Achelous I515

Quick Guide

Date of purchase: 2020.AUG.01

Place of purchase: Suzhou,China

ENVIRONMENT

Temperature:

- Operating: 5°C to 35°C
- Non-operating: -20°C to 65°C

Humidity(non-condensing):

- Operating: 20% to 80%
- Non-operating: 20% to 80%

First things first

We would like to thank you for making an notebook your choice for meeting your mobile computing needs.

Your guides

To help you use your notebook, we have designed the quick guide:

First off, the Quick Guide introduces you to the basic features and functions of your new computer.

It covers basic topics such as using the keyboard and audio, etc. This guide contains detailed information on such subjects as system utilities, data recovery, expansion options and troubleshooting. In addition it contains warranty information and the general regulations and safety notices for your notebook.

Software installation

The first time you turn on your computer, it will automatically install software and set up for use. This may take some time, please do not turn off your computer; wait until the installation has finished.

Recovery

You should create recovery backups as soon as you can. The pc Recovery

Management program allows you to create recovery backups and then to restore or reinstall applications and drivers provided by your pc.

Having trouble?

This pc provides several options to support your purchase.

PC support

Make sure you write down your computer serial number, date and place of purchase and model name on the area provided in this guide; save your proof of purchase.

Before you call us, please write down any error message that accompanies the problem, and have the computer in front of you and switched on if possible. Having these items to hand when contacting us will ensure better and quicker service.

Pc website

Remember to visit **www.juncoelec.com** and refer to the support section for up-to-date information, help, drivers and downloads.

Warranty and contact information

You can find information about the warranty for your computer and how to contact technical support in your computer's Warranty.

Your notebook tour

After setting up your computer, let us show you around your new computer.

Screen view

#	Item	Description
1	Webcam	Web camera for video communication. A light next to the webcam indicates that the webcam is active.
2	Screen	Displays computer output.

Whole machine view

- ① Charger connector

② USB 3.0 port

③ HDMI connector

④ Display panel
- ⑤ Touchpad

⑥ Touchpad buttons

⑦ Keyboard

⑪ Power
- ⑧ USB 3.0 port

⑨ Headphone jack

⑩ Micro-SD card slot

⑫ RJ-45

#	Item	Description
1	Charger connector	Connects to an AC adapter.
2	USB 3.0 port	Connects to USB devices.
3	HDMI connector	Supports high-definition digital video connections.
4	Display panel	Displays computer output.
5	Touchpad	Touch-sensitive pointing device. The touchpad and selection buttons form a single surface.
6	Touchpad buttons	Press down firmly on the touchpad surface to perform a left click. Press down firmly on the lower right corner to perform a right click
7	Keyboard	For entering data into your computer.

8	USB 3.0 port	Connects to USB devices.
9	Headphone jack	Connects to an external microphone for recording audio.
10	Micro-SD card slot	Accepts one Secure Digital(TF/MINI SD)card. Only one card can operate at a time.
11	Power	Turns the computer on and off.
12	RJ-45	Ethernet cable insertion port

Information on USB 3.0

- USB 3.0 compatible ports are blue.
- Compatible with USB 3.0 and earlier devices.
- For optimal performance, use USB 3.0-certified devices.
- Defined by the USB 3.0 specification (SuperSpeed USB).

Base view

Using the keyboard

The keyboard has full-sized keys and separate cursor, lock, Windows, function and special keys.

Hotkeys

The computer employs hotkeys or key combinations to access most of the computer's controls like screen brightness and volume output.

To activate hotkeys, press and hold the <Fn> key before pressing the other key in the hotkey combination.

Hotkey	Function	Description
<Fn> + <Esc>	Touchpad toggle	Turns the built-in touchpad on and off.
<Fn> + <F2>	Speaker toggle	Turns the speakers on and off.
<Fn> + <F4>	Volume up	Increases the sound volume.
<Fn> + <F3>	Volume down	Decreases the sound volume.
<Fn> + <F5>	Keyboard light control	Keyboard light switch and brightness adjustment
<Fn> + <F6>	Screen brightness -	The screen is dimmed
<Fn> + <F7>	Screen brightness +	The screen brightness is adjusted up
<Fn> + <F8>	Previous	Return to the previous media file.
<Fn> + <F9>	Next	Jump to the next media file.
<Fn> + <F12>	Insert	A mode used to switch text input in a word processor.

Declaration of Conformity

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Product: Notebook Computer

Trade Name: Broage

Name of Responsible Party: Hangzhou ALL IN E-Commerce Co., Ltd.

Address of Responsible Party: Room 1602-2, Building 1, Xingyao City, No. 2028 Jiangling Road, Xixing Street, Binjiang District, Hangzhou City, Zhejiang Provinc

FCC Statement

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference.

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

SAR Information Statement

Your broage NBOOK is a radio transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radiofrequency (RF) energy set by the Federal Communications Commission of the U.S. Government. These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age and health. The exposure standard for broage NBOOKs employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6 W/kg. * Tests for SAR are conducted with the broage NBOOK transmitting at its highest certified power level in all tested frequency bands.

Although the SAR is determined at the highest certified power level, the actual SAR level of the broage NBOOK while operating can be well below the maximum value. This is because the broage NBOOK is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station antenna, the lower the power output. Before a broage NBOOK model is available for sale to the public, it must be tested and certified to the FCC that it does not exceed the limit established by the government adopted requirement for safe exposure. The tests are performed in positions and locations (e.g., at the ear and worn on the body) as required by the FCC for each model. The highest SAR value for this model when worn on the body, as described in this user guide, is

0.298W/Kg(Body-worn measurements differ among broage NBOOK models, depending upon available accessories and FCC requirements). While there may be differences between the SAR levels of various broage NBOOKs and at various positions, they all meet the government requirement for safe exposure. The FCC has granted an Equipment Authorization for this model broage NBOOK with all reported SAR levels evaluated as in compliance with the FCC RFexposure guidelines. SAR information on this model broage NBOOK is on file with the FCC and can be found under the Display Grant section of <http://www.fcc.gov/oet/fccid> after searching on FCC ID: 2AWGQI515 Additional information on Specific Absorption Rates (SAR) can be found on the Cellular Telecommunications Industry Association (CTIA) web-site at

<http://www.wow-com.com>. * In the United States and Canada, the SAR limit for broage NBOOKs used by the public is 1.6 watts/kg (W/kg) averaged over one gram of tissue. The standard

incorporates a substantial margin of safety to give additional protection for the public and to account for any variations in measurements.

Body-worn Operation

This device was tested for typical body-worn operations. To comply with RF exposure requirements, a minimum separation distance of 0mm must be maintained between the user's body and the handset, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.
