

# Instruction Manual

Thank you for the support and use of this product. This product is a wireless charger with wireless charging function. Elegant appearance, easy installation, intelligent motherboard, intelligent charging, perfect compatibility of 98% digital electronic products on the market, so on. This product is mostly installed on worktables or desks, and can be used in offices or at home, that is, charging at any time and keeping the table clean.

## 1. Specification

Input: 5V 2.0A QC2.0

output: 5V 1.0A 5W

10W (compatible with 7.5W)

embedded Model : WP-W21-001 (Figure 1)

Size:  $d=80\text{mm}(\text{MAX})$   $d=59.5\text{mm}(\text{Min})$   $t=11.3\text{mm}$

Movable Model : WP-W21-901 (Figure 2)

Size:  $d=107\text{mm}(\text{MAX})$   $t=16\text{mm}$

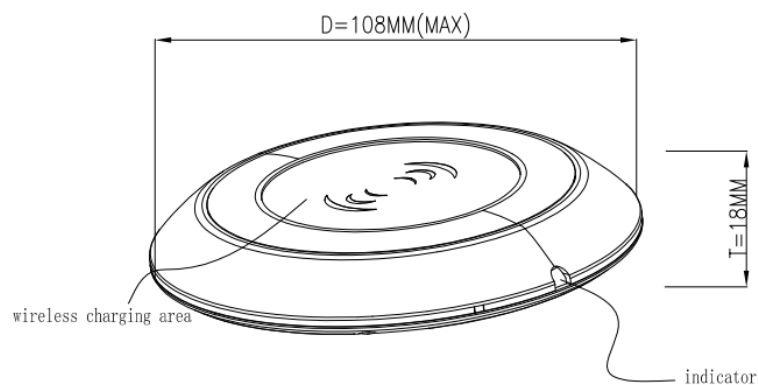

Figure 2

## 2. Functional description

Use this charger wireless charging function, pls confirm your device support wireless charging first. Charging Device via wireless, pls just put the device on the wireless charging area (Figure 1), as wireless charging valid distance is just 2-6mm, so if the cellphone protection case is over 6mm, p

Is take off the phone.

Figure 2, When the phone is put of the charging area of the wireless charger,the indicator shows red when the phone is on the process of being charged; the indicator shows green when the phone is fully charged.

### 3. Attentions

1. This product does not have waterproof function. It is strictly prohibited to clean the charger with wet cloth or in water, so as not to cause leakage. short circuit or other faults. When the USB output is not used, please turn the upper cover to cover the USB port.

2. Please do not make goods short circuit on purpose, self disassemble or throw it into the fire, to avoid the accident caused by equipment on fire or burst.

3. Please do not expose goods to sunlight or damp or rainwater for a long time. At the same time, avoid using in such environment.

4. Please do not use goods in the closed environment, to avoid bad heat dissipation cause the charger and cell phone to be perm, reduce the life of the charger and cellphone, cause the damage, even the risk of smoke and fire. If there are abnormal smell, hot, deformed and abnormal conditions during the use of the charger, please stop using it immediately.

5. It's normal phenomenon product and mobile phone will have slight fever during the process of wireless charging..

6. Products have been tested no charging or overheating will no occur during charging.

7. Please do not place metal objects in the wireless charging area.

8. This product requires wooden table with a diameter of 60mm.

#### FCC warning:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance

could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different

from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

#### FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body

Warning: Changes or modifications to this unit not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment
