#### Charging Function:

- 1.It contains a built-in rechargeable battery. Before the first use, please fully charge the headphone to ensure optimal performance and battery life.
- 2.Connect the charging cable to any powered USB port. Make sure it is fully plugged in.

NOTE: Operating the headphone while charging may affect the battery life.

#### Bluetooth Pairing:

- 1.Turn on the Bluetooth function on the device that you wish to pair (i.e. smartphone or other compatible device). Some devices may require selecting "Search for Devices" or "Add New Device" in order to create a Bluetooth pairing. If so, initiate a manual search.
- 2.Select "PBK Headphones" once it appears on your device screen. Once a connection is established and the pairing is complete, the indicator light will turn blue.

\* The headphone must be paired with a Bluetooth output device before it can operate.

\* It is advised to turn the volume on your device all the way down before connecting, then gradually increase the volume until a comfortable listening level is reached.

\* If the headphone does not pair with any device after 3 minutes, it will turn off automatically to save power.

## Safety and Care:

- When the headphone is not in use, turn it off and store in a cool and dry place. Battery performance will be severely decreased if stored in extreme temperatures, including in direct sunlight.
- Clean with a soft and dry (or slightly damp) cloth. Avoid any liquid leaking into the seams of the device. Never use any kind of chemical cleaner.
- Do not attempt to repair or disassemble any part to avoid permanent damage.
- Do not place on any wet surface. Do not use near water.
- If the device does come in contact with any liquids, wipe away as quick as possible. If submerged in water, do not turn the device on until 100% dry.
- Do not drop the headphone on any hard surface. This may damage the product.
- Press the function buttons gently. Pressing hard could shorten the lifetime of the buttons.
- Do not place the speaker near a TV, speakers, wireless telephones or other objects that generate strong magnetic fields.
- Do not use around flammable gases, as fire or explosion may occur.
- Do not block any ventilation openings.
- Do not operate near any heat sources such as radiators, heat registers, stoves or other apparatuses (including amplifiers) that produce heat.
- Protect the power cord from being walked on or pinched, particularly near the plug and the point where the cord exits from the headphone.
- Use only the attachments/accessories that come with this device.
- Refer all servicing to qualified service personnel. Servicing is required when the device has been damaged in any way, including when the power-supply cord or plug has been damaged, objects have fallen onto the device, the device has been exposed to rain or moisture, or the device has been dropped or does not operate normally.

## FCC Statements:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

## NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
