Input: 5V = 1A

Rated power: 4.5W

Model: LPUSEM-001

What's included

- 1 x LOYPA Eye Massager
- 1 x USB Cable
- 1 x User Manual
- 1 x Warranty Card

Wearing the device

Align the cloth cover to your eyes, put on the device, adjust the elastic band, adjust the device to the most comfortable position. Hold the power button for 3 seconds to turn on the eye massage.

Charging

1. Plug the power adapter into the USB port.
2. The indicator light is red during charging, and it will be in blue once the battery has been charged completely.
3. The product cannot be used during charging. (If the product is charged when it is working, it will run the self-protection program to stop working automatically.)
4. The product has built-in rechargeable battery. The charging time is of about 3 hours.
5. Please stop using it when the product indicates that the battery is low through voice reminder. Use it after recharging.

Multiple ways of charging the product

1. Through USB port on the computer;
2. Through mobile power supply;
3. Through standard 5V charger plug (recommended, not included).

Bluetooth pairing

Hold power button for 3 seconds and the Bluetooth pairing mode opens automatically, on your phone or tablet enter your Bluetooth settings and select "Loypa eye massager" to connect.

Note: Connection for the first time needs manual acting. If the product is paired with your phone successfully, they will connect each other automatically when turning them on the next time.

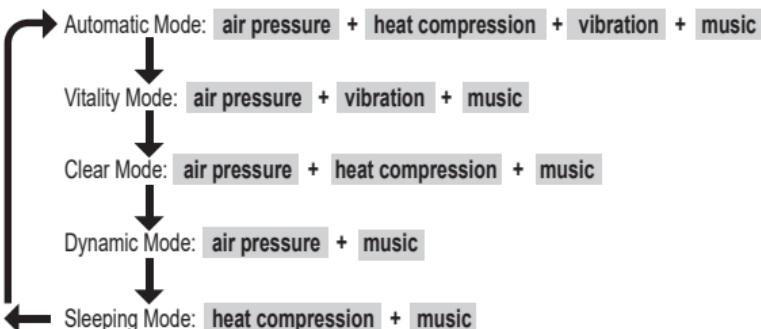

During operation

Default setting: Automatic mode = **air pressure** + **heat compression** + **vibration** + **music**

The default time of usage is 15 minutes after turning on the product. For longer time of usage, please turn on the product again.

Press power button to change mode:

Hold power button 3 seconds to turn on/off the eye massager. Gently press power button to change modes. Audio voice will confirm mode change.

Damaged due to the improper usage or storage;

Damaged by attempting to repair or disassemble the device;

Period of warranty exceeded.

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement.
