

PERSONAL TRAINING OF THE FUTURE.

SPECIFICATION

SPECIFICATION

Model: HW-HB100

IC-ID: 26246-HB100 | WEEE-Nummer DE 54281855

HERO WORKOUT™ GmbH

Schlittenbacher Straße 2, 58511 Lüdenscheid, DE

Power Supply: 5V DC

Limited Power Source according to IEC60950-1. Short-circuit current < 8A

FCC-ID: 2AWRN-HB100

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. The Federal Communications Commission (FCC) warns the users that changes or modifications to the unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. RF exposure statement: This device complies with the RF exposure requirements for mobile and fixed devices. However, the device shall be used in such a manner that the potential for human contact during normal operation is minimized.

IC (INDUSTRY CANADA) STATEMENT

This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions:

- (1) This device may not cause interference; and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) L'appareil ne doit pas produire de brouillage.
- (2) L'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

SAFETY

#SAFE

Use at your own risk. It doesn't matter what sport you do and how cautious you are, you might hurt yourself. If you are unsure about an exercise, if you have a medical condition, if you are pregnant or feel pain - consult a doctor or professional. Training should move you forward - not set you back! Listen to your body.

No Water please. A little sweat won't hurt - or a little cleaning with a damp cloth. However no swimming, diving, showering with the device! You better do that alone!

Keep cool! Do not store the device in extremely hot or extremely cold environment. The recommended range of temperature is between 5°C and 35°C (41°F and 95°F).

Waste Electrical & Electronic Equipment. This marking on the product, accessories or literature indicates that the product and its electronic accessories (e.g. USB cable) should not be disposed of with other household waste. This EEE is compliant with RoHS.

- Use charging devices, accessories and supplies recommended by the manufacturer only!
- The Sensor must not be exposed to heavy vibration and brute forces.
- Avoid any contact of the hardware with conducting elements, such as metals and fluids.
- Never expose the sensor to direct sunlight, especially over a longer period of time. It could overheat and be damaged.
- Do not store the device close to heaters, microwaves, kitchen equipment or high pressure containers.
- Do not touch the device and its charging cable with moist hands during the charging process.
- Don't use the product outdoors during heavy rain and thunderstorm.
- Switch the device off in explosive environments.
- Pay attention to all security guidelines regarding the usage of mobile devices while driving a vehicle.
- If the product is damaged, broken or gets very hot, stop using it immediately and send it back to Hero Workout for inspection.
- Prevent children and animals from inserting the device into their mouth.
- Do not poke this device against eyes, ears or other bodyparts.
- Since the device contains a bright LED, do not use it in the direct vicinity to eyes of humans and animals.
- In case of skin irritations or allergic reactions, stop using the device and consult your dermatologist.

Never open the housing of your sensor, it does not contain any parts to be maintained or exchanged.
