

Product Configuration:

Battery Specification: 1.5V(AAA)*2

Section Operating Voltage: DC 3V

Quiescent DC: 0.5uA

Modulation Mode: GFSK

Product appearance structure:

Positive

Positive

Lower flank

Left side

Baby carriage remote control product manual

2.4G wireless transmitter remote control

Product Type: HH-670Y

Upper flank

Back

Battery cover/Battery bin

Internal product Structure:

anteroposterior end of shell

circuit board

circuit board

battery spring

Component List:

C1-10UF

C2-100NF

C3-20PF

C4-20PF

R1-100R

R2-510R

D1-LED

D2-LED

D3-LED

K1-6*6*4

K2-6*6*4

K3-6*6*4

K4-6*6*4

K5-6*6*4

K6-6*6*4

IC1-RF CHIP

Y1-16MHz

Product Description:

1. mount the remote control battery, the remote control first indicator light starts flashing.

1 LED flashing

2. Turn on the baby carriage power supply, the remote control three all bright, namely the code is successful.

All three LED light up

Product button description:

1. (↑) forward key: press and hold forward key car forward moving.
2. (↓) Back button: press and hold the back button the car is backwards moving.
3. (⇐) left turn key: Hold left turn key car direction turn left.
4. (⇒) Turn right key: press right key car direction turn right.
5. (S) speed control key: speed is divided into low, medium and high gear cycle speed, each press one to switch a gear.
6. (P) Brake Button: press the brake button and remote control the three LED lights on the flashing together, marking the braking status and press the brake button to release the brake.

Zhengzhou Honghui Electronic Manufacture Co., Ltd

NO.20,4/F,Building 36,Hongsong Road,Gaoxin District,Zhengzhou

Tit : 0371-67811860

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

The device has been evaluated to meet general RF exposure requirement, the device can be used in portable exposure condition with restriction
