

In order to better use this product, please read the instructions carefully before installation!

# Operating Manual

**Product Name:** Call Button

**Product model:** E-01

## Product Overview

The transmitter and receiver are used together, no wiring, no installation is simple and flexible, this product is mainly suitable for orchard farm alarm, family residence, company, hospital, hotel, factory and other environments.

## Product Feature

.Simple operation, press the button to work.

.Easy to install, can be screwed on the wall can be double-sided tape attached to the smooth wall in the desired position.

.The remote control distance in an open and barrier-free environment can reach 150-300 meters: the remote control signal is stable and does not interfere with each other.

.There are indicators when working.

## Product Drawing

## Operating Manual

1. Open the package and take out the product.
2. Power the receiver into the code matching learning mode.
3. Short press the switch button to send a signal to the receiver and light the blue indicator.

## Replace Battery

1. Insert a small screwdriver into the bottom notch of the launcher and open the cover.
2. Take out the old battery, dispose of the removed battery properly, install a new battery into the battery groove, pay attention to the positive and negative terminals.
3. Align the launcher cover with the base and snap the buckle to close the top cover.

## Technical Specification

operating temperature	-30℃ to +70℃
working frequency	433.92MHz±280KHz
Transmitter battery	23A12Valkaline zinc-manganese dioxide cell
Standby time	1 year

This device complies with part 15 of the FCC Rules. Operation is subject to the condition that this device does not cause harmful interference (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed

to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception,

which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:-

- Reorient or relocate the receiving antenna.

— Increase the separation between the equipment and receiver.

— Connect the equipment into an outlet on a circuit different

from that to which the receiver is connected.

— Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

(1) This device may not cause interference.

(2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux

CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

1) L'appareil ne doit pas produire de brouillage;

2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Cet émetteur ne doit pas être colocalisé ou fonctionner en conjonction avec une autre antenne ou un autre émetteur.

The device meets the exemption from the routine evaluation limits in section 2.5 of RSS-102 and compliance with RSS-102 RF exposure, users can obtain Canadian information on RF exposure and compliance.

Le dispositif rencontre l'exemption des limites courantes d'évaluation dans la section 2.5 de RSS 102 et la conformité à l'exposition de RSS-102 rf, utilisateurs peut obtenir l'information canadienne sur l'exposition et la conformité de rf.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction. Le matériel a été évalué pour répondre aux exigences générales d'exposition aux radiofréquences. Le dispositif peut être utilisé dans des conditions d'exposition portables illimitées.
