

## AxisGO Bluetooth® Pistol - Setup Instructions

- Unscrew the battery compartment cover on your AxisGO BT Pistol
- Remove the protective cover from the battery terminal
- Reinstall battery and battery compartment cover
- IMPORTANT: Ensure the positive "+" end of the battery goes into the battery compartment first.
- Open "Settings" in your iPhone
- Click on Bluetooth
- Ensure the Bluetooth function of your phone is turned on
- Hold the FRONT Shutter Button down for 2 seconds until the green light starts flashing
- Select "AquaTech Pistol Grip" From the "other devices list" in your iPhone
- When prompted, confirm you wish to pair your phone with the AquaTech Pistol Grip
- The green light will now flash once every 3 seconds when your phone has been successfully paired with the BT Pistol
- The BT Pistol now acts as the minus "-" button on your phone's volume settings, allowing you to capture still and video images when using the "Camera" App
- Your BT Pistol has an auto-off function. After 45 minutes of inactivity the unit will power off. It is also possible to unpair your phone and the device will power off after 30 seconds.

Note: If the LED shows a RED light, the battery is low and will need to be changed. Replacement battery type: CR123A

Model: AquaTech GO Grip (AxisGO Bluetooth® Pistol) Frequency Band: 2402-2480MHz RF Power: 2.25dBm

### FCC statements:

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications or changes to this equipment. Such modifications or changes could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### SIMPLIFIED EU DECLARATION OF CONFORMITY

The simplified EU declaration of conformity referred to in Article 10(9) shall be provided as follows: Hereby, AquaTech (NSW) Pty. Ltd. declares that the radio equipment type AquaTech GO Grip is in compliance with Directive 2014/53/EU.
