

Garden light

User Manual

Thanks for your purchasing, please read this manual carefully before operating the system. It gives you general information for your safety and better operation.

Inspection

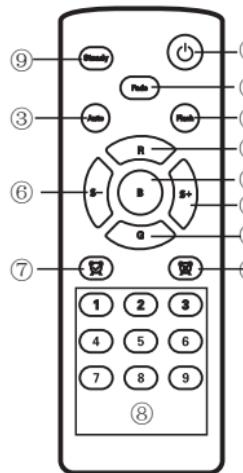

Check for the contents in the package refers to the following list:

1. Light X1	2. AdaptorX1	3. Power cordX1
4. JunctionX1	5. Groud stakeX1	6. BaseX1
7. Remote controlX1	8. ScrewsX1	9. User ManualX1

Safety Attention

- * Better to work 6 hours then cool it down with 30 minutes,it will save the lifetime of lighting source.
- * Laser is ClassII,the power of each laser point is not more than 1mW,no harmful to human body and eyes.
- *This product is mainly used for outdoor with waterproof Ip65. It has excellent radiating ease put it far way from the flammable obejects or liquids.
- *Please use our own power adaptor to support the light.If you need to change a new adaptor please check the parameter of our adaptor and buy a new One.If you need more longer power cable, please use legal cable with enough diameter and control the length or it will give more higher load to the adapter.
- * When connecting the cable to the plug adapter,please make sure the 2 pin plug is the right way round,the “Flat” and “Keyway” need to match or there will be no contact.

Remote Guide

- ① :On/Off;
- ② Fade:Breath mode(Non-selectable color);
- ③ Auto:Auto matic mode(Non-selectable color);
- ④ Flash:Stroboscopic mode(Selectable color)
- ⑤ RGB:Control color on and off;
- ⑥ R:Control the red light On/Off;
- ⑦ G:Control the green ligh On/Off;
- ⑧ B:Control the blue ligh on and off;
- ⑨ S-S+:Adjust the motor speed,with 3 speeds:slow,medium,fast.
S-Slow down;S+Acceleration;
- ⑩ :Set timing On/Off;
- ⑪ 1h-9h: Setting timing time;
- ⑫ Steady: back to default mode

Note:

When you need to use the remote control,please tear off the protective film of the battery in the remote control,So that you can use it better.

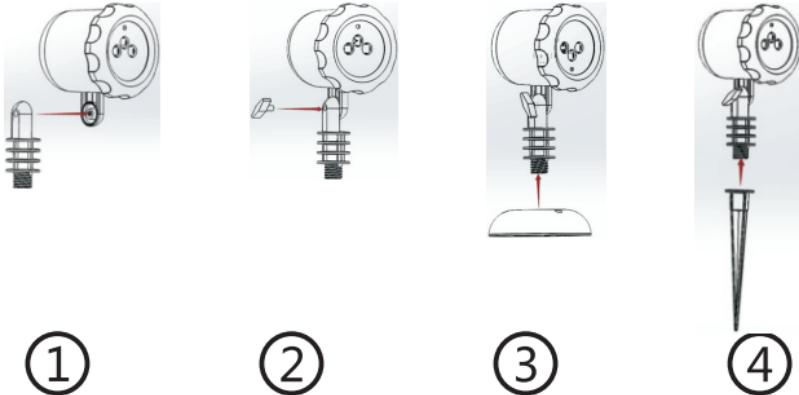

When the time is required, please press the light will flash twice to indicate that it has received the directive, then select the desired time (press once) to set the timing successfully.

When you need to cancel the timer, please press , the light will flash twice to indicate that it received the directive, the timer was been off.

If you want to change the timing time, please press to cancel the timing firstly, then press and press the desired time (1, 2,3, 4..... only select one).

For example: if you select 2h, the light will automatically turn off after 2 hours, and 22h will automatically turn on(24 hour cycle, under the condition of uninterrupted electricity power).

Installation Steps

Be sure that the using voltage is match with the voltage marked on the base of the laser lighting;

Fix the laser and adjust the angle of the laser light to your need.

Don't stare into the beam or view with optical instrument.

Be sure that there is no flammable or explosive subject nearby.

The least distance is 0.5 meters.

The laser lighting should be fixed by inserting into soil or attached to trees etc;

It is essential to be earthed well for the stake of safety.

Adapter to be installed indoors or an outdoor waterproof socket.

Warning: This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Garden light. Rating: AC100-240V, 50/60Hz	
CLASS 2 LASER PRODUCT	

MADE IN CHINA

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
