C:77% M:70% Y:66% K:33%

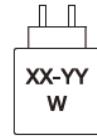

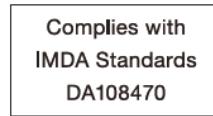

SIZE:95X95X35.5MM

Back Side

User manual as below:

Product Certification Information / Informations sur la certification des produits / Informationen zur Produktzertifizierung / 製品認証情報 / 产品认证资讯 / 產品認證資訊

The power delivered by the charger
must be between min XX Watts
required by the radio equipment, and
max YY Watts in order to achieve the
maximum charging speed.

CMIIT ID:XXXXXXXXXX

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
