Scan the following QR code, download and install the App.

Charging and Active:

Before using the watch for the first time, it needs to be charged and activated; use the equipped magnetic charging dock to attach to the metal contact points on the back of the watch, then connect the other end of the charger to a USB power adapter or computer USB port for charging.

※ **How to connect**

1. Open the App and set up your profile.
2. Go to the [Device] , click [Add a Device].
3. Choose your device on the scanning list, finish.

The MAC address on the "Setting"-"About" page could help you identify your device on the scanning list.

What if I don't get the notice?

1. First, the notification function of the watch is only for synchronizing the notification function of the phone, such as incoming emails, WhatsAPP, WeChat reminders. If you haven't received the notification on your phone, the watch will also not receive it. To set up the notification function on your phone, find the corresponding APP, open notifications, and allow all.

2. Due to the non-uniform BT protocols of each mobile phone brand, sometimes the BT connection between the phone and the watch is unstable. You can turn off the BT on your phone and reconnect it, or restore the watch to its factory settings.

3. Delete "RWFit" and download it again. Please note that all permissions should be opened during the installation process, and then the watch should be reconnected.

Warranty

1. If there are any quality issues caused by manufacturing, materials, or design within one year (from the day of purchase), as well as issues with the battery and cable within 6 months, we will provide free warranty. The condition is that the product is used normally and correctly.
